NARRATIVES

Rpt Date: 2/27/2012 2:28 Reporter: A49160 AYALA, RICARDO Clearance: 0 Open Narr. Type: O
Mod By: SANFORD\mccoys Mod Date: 2/27/2012 5:08 Related Case Number:
On 2/26/12, at approximately 1917 hours, I was dispatch to 1111 Retreat View Cir. in reference to a complainant seeing a suspicious person in the area. While en route dispatch stated the they were receiving calls in reference to gun shots being heard in the area where I was responding to.

Ofc. T. Smith stated via radio that he was arriving in the area. Ofc. T. Smith later states that there was one subject shot and he had one at gun point.

Upon arrival Ofc. T. Smith had a white male, later identified as George Zimmerman, in custody. Zimmerman was also the original caller in reference to the suspicious person.

I then noticed that there was, what appeared to be a black male wearing a gray sweater, blue jeans, and white/red sneakers laying face down on the ground. The black male had his hands underneath his body. I attempted to get a response from the black male, but was met with negative results. At that time Sgt. Raimondo arrived and attempted to get a pulse on the black male but none was found. At that time, Sgt. Raimondo and I turned the black male over and began CPR. Sgt. Raimondo did breaths and I did chest compressions.

Sgt. S. McCoy arrived on scene and relieved me continuing compressions. Sanford Fire Rescue arrived on scene and attempted to revive the subject, but could not. Paramedic Brady pronounced the subject deceased at 1930 hours.

The scene was then secured with crime scene tape by Ofc. Mead and Ofc. Wagner. Ofc. Robertson began a crime scene contamination log.

Lt. Taylor arrived on scene and notified dispatch to have Major Crimes respond to the scene.

Ofc. Mead and Ofc. Wagner were able to make contact with neighbors in the area. They were able to obtain statements from all witnesses on scene.

The scene was turned over to SPD Major Crimes.

I swear/affirm the above statements are true and correct. On 2/26/2012, at approximately 1917 hours, I responded to 1111 Retreat View Cir in reference to a report of a suspicious person. As I arrived on scene, dispatch advised of a report of shots fired in the same subdivision.

I was advised by dispatch that the report of shots fired was possibly coming from 1231 Twin Trees Ln. I was then advised, after receiving multiple calls, that there was a subject laying in the grass in between the residences of 1231 Twin Trees Ln. and 2821 Retreat View Cir. I responded to 2821 Retreat View Cir and exited my marked Sanford police vehicle and began to canvas the area. As I walked in between the buildings I observed a white male, wearing a red jacket and blue jeans. I also observed a black male, wearing a gray hooded sweat shirt, laying face down in the grass.

I asked the subject in the red jacket, later identified as George Zimmerman (who was original caller for the suspicious person complaint), if he had seen the subject. [REDACTED] Zimmerman complied with all of my verbal commands and was secured in handcuffs. Located on the inside of Zimmerman's waist band, I removed a black Kel Tek 9mm PP9 semi auto handgun and holster. While I was in such close contact with Zimmerman, I could observe that his back appeared to be wet and was covered in grass, as if he had been laying on his back on the ground. Zimmerman was also bleeding from the nose and back of his head.

Shortly after securing Zimmerman, Officer Ricardo Ayala arrived on scene. I advised Officer Ayala that I had not made contact with the black male subject laying on the ground. I observed Officer Ayala make contact with the subject and attempt to get a response, but was met with negative results. Shortly after this, other officers began to arrive on scene along with SFD Rescue 38 who began to give aid to the subject laying on the ground.

Mod By: SANFORD\tsmith Mod Date: 3/1/2012 22:49 Related Case Number:

This narrative is a supplemental to my original narrative on 2/27/2012. It should be noted that I was in contact with Zimmerman from the time that I secured him on scene, until the time that he was released from investigative detention.

Zimmerman was treated on scene by SFD for his injuries. Zimmerman was given the opportunity by SFD, while on scene at Retreat View Cir, to be transported to the hospital in order to be examined by a doctor for his injuries. Zimmerman declined.

While en route to the Sanford Police Department with Zimmerman, he complained that his head hurt and that he felt a little light headed. I asked Zimmerman if he would like to go to the hospital. Zimmerman stated that he wasn't sure what to do. I advised Zimmerman that it was his choice, and that I would drive him to the hospital. Zimmerman declined once again to be taken to Central Florida Regional.

Once I arrived at the Sanford Police Department with Zimmerman, he was placed in an interview room. Zimmerman was provided with tissues and a bottle of water. Zimmerman was asked once again if he felt the need to go to the hospital, or if he wanted SFD to come back out to take another look at him. Zimmerman declined and stated "I think I'll be ok."

I kept a constant watch on Zimmerman through two way mirror glass. At no point did Zimmerman exhibit any behaviors that warranted my concern for immediate medical attention.

I also made contact with Zimmerman every 15-20 minutes (approximately) to check his status, or to see if he had any requests. During my contact with him, Zimmerman only requested for more tissues, more water, and to go to the bathroom. Zimmerman did not make any more complaints about feeling light headed.

I swear/affirm the above statements are true and correct. Officer's Signature:	Sworn to and subscribed before me, the undersigned authority, this _____ day of _____, in the year _____ Name/Title of Person Authorized to Administer Oath

On 02-26-12 at approximately 1920 hours, I responded to the area of Retreat View Circle in reference to a disturbance with "shots fired". While enroute I heard Ofc. Smith communicate that he was in contact with a possible suspect and an injured person.

On arrival at the complex, I asked Ofc. Smith if he was left, or right from the entrance. Ofc. Smith told me to go left. After the first turn, I saw Ofc. Smith standing between the buildings with a male. I exited my car and went to Ofc. Smith. Ofc. Smith identified the person in his custody as the "shooter" and showed me a handgun.

As Ofc. Smith escorted the suspect male to his patrol car; I went to render aid to the injured male. I noticed that the injured male was young, and apparently of African-American descent. The male was lying on his stomach with his head oriented in the general direction of north. I attempted to obtain a pulse from this position, but did not get one. With the assistance of Ofc. Ayala, I rolled the male on to his back and tried to get a pulse. At this time I confirmed that the male had no pulse and was not breathing. Ofc. Ayala and I began CPR. As I began breaths I noticed bubbling sounds from the male.

I lifted the males shirt and saw a chest wound. As I lifted the shirt, I felt a large, cold can in the center pocket. I directed bystanders nearby to get me some plastic wrap and Vaseline. An Asian male returned with a plastic grocery bag and I used it to seal the chest wound. I was unable to find an exit wound on the males back.

Sgt. McCoy relieved Ofc. Ayala from chest compressions and she and I performed CPR for approximately six minutes before rescue arrived. Once rescue took over, I stood by and watched until they pronounced the male deceased.

I supervised the establishment of the crime scene and crime scene log. I procured an emergency blanket from my vehicle and covered the male. I assisted with identifying witnesses.

I swear/affirm the above statements are true and correct. Officer's Signature:	Sworn to and subscribed before me, the undersigned authority, this _____ day of _____, in the year _____ Name/Title of Person Authorized to Administer Oath:

Narr. Type: O

On February 26, 2012, I was notified to respond to the area of Retreat View Circle reference a shooting. I then notified Inv. Singleton to also respond. Upon my arrival and entering the crime scene, I observed a black male, later identified as, Trayvon Martin laying on the ground with his face up with his head to the west. Martin was wearing a grey sweatshirt and light colored shorts and white tennis shoes.

I was told by an officer that a George Zimmerman was the shooter and a hand gun has been recovered. The officer then told me that Zimmerman had been taken to the Sanford Police Department.

I observed a key chain lying on the grass near the T portion of the walkway, a black flashlight lying on the grass just east of the key chain.

I asked the patrol supervisors on scene if they had canvassed the area. I was told they had some statements from witness. I asked the supervisor to have some of the officers to go door to door as far as the crime scene tape in attempt to locate more witness. I asked another patrol officer to run the vehicle tags parked along the road on both sides of the incident. There was a white male standing inside the crime scene standing next to the log officer. I made contact with the subject confirmed we had documented his information and then asked him to exit the crime scene.

I noticed a black cell phone near the area of Martin. I then contacted Agent Shor from CCIB to my location and asked him to bring the celabrite device, a device that is used to down load cell phone information. Upon Agent Shor's arrival he told me that he could not down load any information because the cell phone battery was either very low or the was not operable because the cell phone had gotten wet because of the current weather condition (wet and rain).

While Martin was in the process of being transferred to the M.E.'s office an inventory was being conducted of Martin's person. I noticed the items collected for evidence were a bag of skittles, an Arizona ice tea can and head phones. I also observed Sgt. Ciesla recover an empty bullet casing in the grass after Martin's was recovered from the scene.

I responded to the Sanford Police Department upon my arrival I asked Zimmerman's wife to get another set of clothing because the investigators were going to seize her husband's clothes. Zimmerman was released a short time later.

On February 28, 2012 I spoke with SA Carter who told me, we did not need a search warrant. I had CST Smith take the cell phone to the Seminole County Sheriff's Office to see if they could download the cell phone. On March 1, 2012 I was contact by the supervisor from the Seminole County Sheriff's Office that they could not do anything with the cell phone other than download what was on the memory chip because they did not have the password.

On March 2, 2012, I contacted via email and asked Sgt. Ciesla to recover the cell phone back from the Seminole County Sheriff's Office.

Related Case Number:

On March 1, 2012, I was contacted by the supervisor of the Seminole County Sheriff's Office that unless they had the swipe code they could not access the victims cell phone.

On March 2, 2012 Inv. Singleton contacted a representative from T-Mobile who told her if the Sanford Police Department obtained the cell phone number and the pin number to the account they would be able to bypass the swipe code on the cell phone.

On March 5, 2012, I contacted Mr. Martin (victims father) via cell phone and asked if I could obtain the pin number from the victims cell phone. Mr. Martin stated he would contact his lawyer before releasing that information.

I then contact several of Zimmerman's neighbors [REDACTED] all stated he was a quiet neighbor. All stated he would encourage them to attend community meetings all stated never harassed or bothered anybody.

I contact Inv. Serino and told him my findings of this day.

I swear/affirm the above statements are true and correct.

Related Case Number:

On 02/27/12 I responded, as the on duty Supervisor, to the area of 1111 Retreat View Circle in reference to several calls advising shots fired. As I was enroute, Officer T. Smith, had already arrived. Officer T. Smith advised over 11A that he needed assistance immediately, confirming there was a victim unresponsive and he had one at gun point.

Upon my arrival, I observed that Officer T. Smith had one subject in custody and seated in the rear of his vehicle. I confirmed that Officer T. Smith was okay and then went to the other assisting Officers, who were attempting to revive the victim. Upon making contact with the officers that were with the victim, I provided a CPR mask to Sgt. A. Raimondo so that he may provide rescue breaths. I put gloves on, placed a plastic bag over the wound to the victim's chest and proceeded to provide chest compressions. Our efforts were continued until SFD arrived and took over. Briefly thereafter, SFD declared the victim deceased.

I instructed Officer T. Smith, to have SFD provide medical care to the suspect, reference visible blood on his face and then to transport the suspect to the SPD, for everyone's safety. I also instructed Officer A. Johnson to accompany Officer T. Smith to SPD, for officer safety. I instructed Officer C. Davila to attempt to locate the victim's identification, to no avail.

The victim is described as a younger B/M, in his teens. I observed a single gun shot wound to his chest. I observed a package of Skittles in the front pocket of the victims sweatshirt. I observed a can of Arizona Iced Tea and a pair of ear phones, in close proximity to the victims body. Scattered nearby, I observed a small flash light, cell phone and car keys with a small flash light.

I instructed assisting Officers to go door to door in an attempt to obtain any witness statements. Officer Mead assisted in doing this.

I assured that the crime scene was secured by crime scene tape and that a crime scene contamination log had been started. The scene was held pending the arrival of Major Crimes.

Upon arrival of Investigations staff, Officer R. Ayala provided a briefing and the scene was turned over to them. I had no further involvement in this investigation.

I swear/affirm the above statements are true and correct.

On 02/26/2012, I responded to the above location in reference to a shots fired call. Part of my assistance in this case was to collect witness statements from residence. I observed a female on the back porch of [REDACTED] I asked [REDACTED] if she had witnessed anything and she replied stating, No but my room mate did. I requested her to find her room mate and ask if she would provide a sworn statement in regards to what she had witnessed. [REDACTED] advised she would look for her.

Several minutes later I returned and met with [REDACTED] and her room mate, [REDACTED] I requested a sworn statement but both [REDACTED] and [REDACTED] advised they were afraid and did not want to assist in providing a statement.

Again several minutes later, [REDACTED] called me over to her porch. [REDACTED] stated that [REDACTED] decided that she would provide a sworn statement and [REDACTED] would write for her due to translation. [REDACTED] provided me a written statement sworn to by [REDACTED] based on [REDACTED] testimony.

I swear/affirm the above statements are true and correct Officer's Signature:	Sworn to and subscribed before me, the undersigned authority, this _____ day of _____ in the year _____ Name/Title of Person Authorized to Administer Oath:

Clearance: 4 Transferred to SAO (Capias) Narr. Type: S
Related Case Number:

On 02/26/2012 at approximately 1900hrs hrs I responded to Twin Lakes Town Homes located with in the City of Sanford in reference to a call for service involving possible shots being fired. While en route I noted the weather to be raining and the time of day to be dark.

Upon arrival I noted that multiple officers, including my two sergeants were on scene administering first aide and rescue breathing to a black male, later identified as Trayvon Martin.

I gave instruction to my trainee, Ofc N Robertson to assist me in securing the scene with crime scene tape. I then instructed Ofc Robertson to maintain and control the crime scene log after instructing him on how to do so.

As some of the residents gathered to watch the activity taking place, I noticed that Ofc T Smith was still on scene and he had a Latino male, later identified as George Zimmerman in his custody. As the scene came under control, I walked to Ofc Smith's car where Zimmerman was sitting and in handcuffs and used my personal I-Phone (due to an immediate lack of access to a digital camera) to take a picture of Zimmerman's face. I saw that Zimmerman's face was bloodied and it appeared to me that his nose was broken. I also saw that the back of Zimmerman's head was also bloodied.

I then walked to where Martin lay on the ground and took a photo of Martin's face as well. I observed no physical injury to Martin. As I maintained the crime scene with Ofc Robertson I assisted with handing out witness statements to those who were willing to cooperate.

Inv. Serino requested my assistance for security to walk with him as he again made contact with all the witnesses who cooperated with police to secure an interview with them. I gave instruction to Ofc Robertson to maintain the crime scene and I assisted Ofc Serino.

After giving Ofc Serino the assistance he needed, I then cleared with Lt M Taylor that the crime scene was secured and that my assistance on scene was no longer needed and that I could return to my regular patrol duties. During the evening I down loaded the photo's to my department issued lap top and deleted the photos from my personal phone.

On 03/18/2012 I received information from Ofc T Smith that no photo existed of George Zimmerman with his injuries. I then emailed both photos to Inv C Serino. Inv C Serino then requested I submit this narrative with my involvement in this case.

REPORT OF INVESTIGATION

CASE NUMBER: 201250001136	Page 2 of 7
INVESTIGATOR: Serino, Christopher F	

DETAILS:

On 02/26/2012 at approximately 1940 hours, I was contacted by CST D. Smith, and she told me that there had been a homicide at Retreat at Twin Lakes. Sgt. Joseph Santiago also called me with the same information. While en route I called Captain R. O'Conner and told him what I had been told and that I was responding. I arrived at approximately 2010 hours and met with CST Smith who briefed me on the scene. It was dark and there were intermittent showers.

I walked through the scene with CST Smith and she pointed out items of evidence that were already located. There was a Honda key with a small flash light on the ring, a cell phone, a larger flashlight, two plastic grocery type bags, a first aid kit, and discarded medical supplies. The victim's body was covered with a yellow plastic blanket with an Arizona Ice Tea can on it. I then assisted CST Smith in photographing the scene while we waited for the Volusia County Medical Examiner's Office investigator and transport services to arrive. After CST Smith completed her initial photographs of the scene I assisted her in measuring the items on the scene for her sketch, she then collected the items. The Volusia County Medical Examiner's Office arrived on scene and began to examine and move the victim. The victim had \$ 40.15 in US currency, a bag of skittles candy, a red 7-11 red lighter in his pockets, headphones next to him, and a photo pin on his sweatshirt. After making inquiries I was told that the Arizona Ice Tea can was from inside the victim's Sweatshirt pocket and had come out while first aid was being given. When the ME investigator lifted the victim's clothing I saw a single gun shot wound to the chest. The victim was then transported for the ME by livery. After a visual search of the area failed to turn up the cartridge I got the metal detector and began to scan the area where the victim had lain. I did one sweep of the area with negative results and then reset the sensitivity of the metal detector. As I started again I heard a strong tone and looked in the area. I did not see anything so I marked the area, and instructed CST Smith to check the area again visually and I moved on. Before I got to the end of the sweep CST Smith told me that she had found casing just inches from where I had placed the marker. CST Smith documented and recovered a 9mm Luger S&B cartridge case. We retrieved our equipment and returned to the Sanford Police Department.

On 02/26/2012 at approximately 2321 hours I again met with CST Smith, officers and investigators and I observed CST Smith take photographs of the subjects' injuries, hands, collect possible gun shot residue using a GSR kit. This took place in a Sanford Police Department interview room 2. We then had to wait for the subject's wife to respond with a change of clothes and the clothes that the subject was wearing were collected. CST Smith collected and logged all of the evidence.

On 02/27/2012 at approximately 1236 hours I responded to Retreat at Twin Lakes and assisted CST Smith in photographing the scene during daylight.

On 03/05/12 I was asked to check the round count for the recovered firearm. I examined the crime scene photos and our café report and determined that:

Recovered at the scene were;

Kel-Tec PF-9

6 live rounds in the magazine

1 loose live round when cleared that had been in the chamber

1 spent casing

Kel-Tec PF-9 round count

All rounds are accounted for if the firearm was fully loaded at the time of the shooting.

Fully loaded the Kel-Tec PF-9 is 7+1, seven rounds in the magazine and one in the chamber.

3/19/12

On 2/28/2012 at approximately 1040 hrs I was walking through the Major Crimes office area and I observed Investigator Serino at his desk playing 911 recordings for Trayvon Martin's father and a female. I decided to stop and stay in the area once I realized that the 911 recordings were being played in case I could render any assistance to the family or Investigator Serino. I was standing by the walkway and a post was separating me from directly seeing Mr. Martin's reactions. Before the 911 call of a person yelling in the background was played, Investigator Serino warned them that there was disturbing content. I could not hear Mr. Martin's reply and Investigator Serino proceeded to play the recording. I did hear Investigator Serino ask Mr. Martin if that was his son yelling in the background. I did not hear a reply. Mr. Martin was talking very softly when I did hear him. I do not know what order the tapes were played in as I was not directly involved with talking to Mr. Martin.

PROBABLE CAUSE

Investigative findings show that on 2/26/2012 at approximately 1912 hrs George Michael Zimmerman initiated a nonemergency call to Sanford Police dispatch to report a suspicious person.

Investigation reveals that Martin was in fact running generally in the direction of where he was staying as a guest in the neighborhood.

Investigation reveals that on August 3, August 4, and October 6, 2011, and February 2, 2012, George Zimmerman reported suspicious persons, all young Black males, in the Retreat neighborhood to the Sanford Police Department. According to records checks, all of Zimmerman's suspicious persons calls while residing in the Retreat neighborhood have identified Black males as the subjects.

Región: S

GRD:

Agency ORI #: FL0590500

OBTS #:

CAPAS REQUEST

Sanford Police Department

For The Public: No

Juvenile: Yes

Agency Report #: 201250001136

[REDACTED]

At 1916 hours, a 911 call, placed by [REDACTED] was received where Zimmerman can be heard in the background frantically yelling for help. At 1917 hours a gunshot was heard in the background of the [REDACTED] 911 call, and moments later Officer Tim Smith arrived on scene. The encounter between George Zimmerman and Trayvon Martin was ultimately avoidable by Zimmerman, if Zimmerman had remained in his vehicle and awaited the arrival of law enforcement, or conversely if he had identified himself to Martin as a concerned citizen and initiated dialog in an effort to dispel each party's concern. There is no indication that Trayvon Martin was involved in any criminal activity at the time of the encounter. [REDACTED]

Attempts to locate additional witnesses have consisted of multiple canvasses of the neighborhood on the evenings of 2/26/2012, 2/27/2012, and 3/1/2012. The distribution of informational flyers throughout the gated community was completed on 2/29/2012 and a community meeting, which was held on March 1, 2012.

All digitally recorded interviews were submitted as evidence, and all forensic laboratory requests are being submitted to the Florida Department of Law Enforcement for analysis.

Based upon the facts and circumstances outlined in this narrative, I believe there exists probable cause for issuance of a capias charging George Michael Zimmerman with Manslaughter, in violation of Ch. 782.07 FS.

This case is being forwarded to the Office of the State's Attorney as a request for capias.

REPORT OF INVESTIGATION

CASE NUMBER: 201250001136	Page 2 of 13
INVESTIGATOR: Serino, Christopher F	

DETAILS:

Case Synopsis:

On 2/26/2012, at the Retreat at Twin Lakes community, located on Oregon Avenue in Sanford, Seminole County, Florida, a twenty-eight year old white male, identified as George Michael Zimmerman and seventeen year old black male, identified as Trayvon Benjamin Martin, engaged in a physical confrontation in a common area behind two rows of townhomes. The Incident was witnessed by several people, all of whom called 911 however the initial harmful event has no known eyewitnesses.

Preliminary investigation showed that Zimmerman, a member of his community's Neighborhood Watch Program, observed Martin walking in the community, and perceived Martin as being "suspicious". Zimmerman acted on his suspicion of Martin, and called the Sanford Police non-emergency line. [REDACTED]

[illegible][illegible]

1

Victimology:

The decedent, positively identified by means of a postmortem photograph by his biological father as Trayvon Benjamin Martin, was a 17 year old resident of Miami Gardens, Florida, and a high school student with no criminal background. When asked as to his propensity towards violence, his father, Mr. Tracy Martin, states his son was a well- mannered, non-violent child. A local Miami Gardens Police Department background check revealed one field contact conducted in November of 2011. [REDACTED]

[REDACTED] and he had been sent there by his father due to having been suspended for ten days from his high school in Miami Gardens for possession of cannabis. He had been in Sanford for seven days prior to this event.

On 2/26/2012 at approximately 1926 hours, I was notified of a shooting with injuries event by the Seminole County Communications Center, and I was instructed to contact the duty Watch Commander, Lieutenant M. Taylor

At approximately 1930 hours I contacted Lieutenant M. Taylor, via NexTel, and I was informed of the location of the incident, and that one person (unidentified black male) was pronounced dead on scene, and that the individual who shot the decedent, identified as George Michael Zimmerman, had remained on scene, was cooperative, was in police custody. I was told that Zimmerman had been transported to the Sanford Police Department for interviewing purpose. I was also advised that the weapon used was also in police custody.

On arrival at the scene, at approximately 2000 hours, I met with SPD Officer Ricardo Ayala, who produced the preliminary report. Officer Ayala briefed me as to the known circumstances. I was informed by Officer Ayala that an apparent confrontation occurred between the then unidentified black male, later positively identified as Trayvon Benjamin Martin, age 17, and George Michael Zimmerman. Officer Ayala further informed me that during the confrontation, Zimmerman stated that he produced a 9mm semiautomatic pistol (for which he had a valid Florida concealed firearm carry permit), and fired a single round, striking Martin in the chest. Officer Ayala informed me that lifesaving efforts performed by Sgt. R. Raimondo, and Officer T. Smith, and Sanford Fire Rescue proved unsuccessful, and that Martin was pronounced dead on scene by Sanford Fire Rescue 38.

I then interviewed Officer T. Smith, who was the first officer on scene. Officer Smith informed me that upon his arrival he came in contact with George Zimmerman, apparently moments after Zimmerman had shot Trayvon Martin. Officer Smith informed me that Zimmerman offered no resistance while he was placed into custody at gunpoint. He stated that Zimmerman's facial area was bloodied, and the posterior of his clothing was soiled with wet grass, indicative of having recently been on his back on the grass. Officer Smith stated

[REDACTED]

I was also informed that statements made by Zimmerman on scene to Officer T. Smith were corroborated by several witnesses, and led to the possibility of this shooting having been in self-defense. Written statements were obtained from [REDACTED]

[REDACTED] Audio recorded statements from these witnesses were conducted at a later date (referred to later in this narrative).

After I learned from Lieutenant Taylor that George Zimmerman had been transported to the Sanford Police Department, I requested Inv. Doris Singleton respond to the police station in order to interview Zimmerman. I contacted Inv. Singleton, informed her of the apparent nature of this matter, and advised her to remove Zimmerman's restraint devices prior to conducting her interview.

I remained on scene and coordinated crime scene processing efforts with Sgt. L. Ceisia and Crime Scene Technician D. Smith. The scene was an outdoor crime scene, in a predominately grassy area with a paved walkway between two rows of townhomes, bordered by Retreat View Circle, and Twin Tree Lane. The time of the evening when the shooting occurred was approximately 1916 hours, after sunset, on an overcast evening with sporadic rain showers. The only ambient lighting was produced by the porch lights of several residences, and overall the location can be best described as dark. The decedent lay supine directly behind [REDACTED], covered by a yellow police issued emergency blanket. He was wearing a dark gray hooded pullover sweatshirt, tan pants, and tennis shoes. I observed no blunt force trauma to his head or facial area.

At approximately 2020 hours I spoke with Volusia County Medical Examiner's Office Investigator T. Clark, and requested her response.

At approximately 2030 hours I interviewed [REDACTED] who resides at [REDACTED]. [REDACTED] stated that while inside of his residence he heard a commotion and two "pops" coming from the area behind his residence. Upon exiting his residence to investigate, he encountered a white male, established to be George Zimmerman. [REDACTED]

[REDACTED] stated he did not witness the sequence of events which led up to the confrontation between Martin and Zimmerman. [REDACTED] provided a written statement, and his interview was audio recorded and submitted into evidence.

On 2/26/2012 at approximately 2055 hours I interviewed [REDACTED] who was in her bedroom, stated she heard "loud voices" coming from the area behind her

residence. She stated she heard a commotion, which sounded to her like arguing. She then stated that she, from her bedroom window, observed two men on the ground, and she then heard someone yell "help, help". She then heard a "pop" noise and then saw the decedent laying on the ground, motionless, and the other male, who she described as "larger" and "Hispanic looking", standing over the decedent. Upon inquiry, [REDACTED] stated she did not witness how the confrontation between the decedent and the shooter occurred. [REDACTED] provided a written statement, and her interview was audio recorded and submitted into evidence.

On 2/26/2012 at approximately 2105 hours I interviewed [REDACTED] [REDACTED] stated that while inside of his residence he heard a commotion coming from the walk way behind his residence. When he investigated, he witnessed a black male, wearing a dark colored "hoodie" on top of a white or Hispanic male who was yelling for help. He elaborated by stating the black male was mounted on the white or Hispanic male and throwing punches "MMA (mixed martial arts) style". He stated he yelled out to the two individuals that he was going to call the police. He then heard a "pop". He stated that after hearing the "pop", he observed the person he had previously observed on top of the other person (the black male wearing the "hoodie") laid out on the grass. Upon inquiry, [REDACTED] stated he did not witness how the confrontation started between the two individuals, and that he could not positively identify either one due to the lighting conditions. [REDACTED] stated he was in his living room at the onset of the commotion, and looked out of his sliding glass door, which placed him approximately 30 feet directly in front from where the physical altercation between Martin and Zimmerman was taking place. [REDACTED] provided a written statement, and his interview was audio recorded and submitted into evidence. [REDACTED] written statement reads as follows:

"I heard yelling out back in grass area of home but not sure at first but after second "help" yell I opened blinds, and saw clothing but everything dark outside. I opened door and saw a guy on the ground getting hit by another man on top of him in a straddle [sic] position hitting a guy in red sweatshirt or on the bottom getting hit was yelling help (guy getting hit on ground was wearing red calling out help). I said I was calling the cops and ran upstairs then heard a gunshot. When I got upstairs I saw the guy on top who was hitting the guy in the red laid out on the grass as if he had been shot. I also saw the guy in red standing near end of sidewalk where a guy with flashlight probably neighbor was talking to him asking what happened."

On 2/26/2012 at approximately 2130 hours, VCME Office Investigator Tara Clark arrived on scene and assumed jurisdiction over the decedent. Initial inspection on the decedent showed no significant trauma, other than a solitary gunshot wound to the chest, just left of midline. The decedent was found to not be in possession of any form of identification, and was transported to the Volusia County Medical Examiner's Office as "John Doe #3". On his person was a can of Arizona brand iced tea, a bag of Skittles candy, and \$40.15 in US currency.

[REDACTED]

[REDACTED]

[REDACTED]

On 02/26/2012 at approximately 2345 hours I spoke with Assistant State Attorney Kelly Jo Hines and apprised her of the circumstances surrounding this case.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

On 2/27/2012, at approximately 0920 hours, after learning of a missing persons' complaint in progress at [REDACTED] I responded along with CSO Ed Manning, and SPD Officer B. McIntosh. On arrival I met with Tracy Martin who stated his 17 year old son, Trayvon Martin, had not returned from going to the store sometime on the evening of 2/26. Mr. Martin informed me his son was not from this area, and that his son is visiting from Miami Gardens, and that his son did not have a State of Florida Identification Card or Driver's License. While conversing with Mr. Martin, I noted several physical characteristics he had in common with the decedent, thereby establishing a reasonable factual basis to believe that the decedent was the son of Mr. Martin. Upon presenting Mr. Martin with a photograph of the facial image of the decedent, taken at the scene, positive identification was made in conjunction with Next of Kin notification. I explained the circumstances surrounding the passing of his son, and summoned for a victim's advocate to assist. Victim's Advocate Debra Wagner responded and assisted Mr. Martin and his family.

On 2/27/2012 at 1030 hours, Trayvon Martin underwent a forensic autopsy at the Volusia County Medical Examiner's Office. Preliminary autopsy findings ruled cause of death was injury stemming from a gunshot wound to the chest which perforated the heart organ, manner of death established as homicide. A single projectile was recovered from the chest cavity of the decedent, and submitted into evidence by CST D. Smith.

On 2/27/2012 I was provided with the audio recordings of six (6) 911 calls stemming from this incident, along with a recording of George Zimmerman's non-emergency call.

I reviewed Zimmerman's nonemergency call to SPD dispatch. [REDACTED]

[REDACTED]

I reviewed the 911 calls, specifically 20120571669, placed by [REDACTED] [REDACTED] In the background I could clearly hear a male's voice yelling either "Help" or "Help Me", fourteen (14) times in an approximately 38 second time span. This voice was determined to be that of George Zimmerman, who was apparently yelling for help as he was being battered by Trayvon Martin.

Investigator D. Singleton, using information obtained from the Seminole County Sheriff's Office Computer

Aided Dispatch (CAD), established the following timeline:

Event 2012571656

1911:12 Call received from George Zimmerman reporting suspicious person

1913:19 Zimmerman relays suspicious person is running from him

1913:36 Dispatcher asks Zimmerman if he is following suspicious person

1913:36 Dispatcher advises Zimmerman "Okay; we don't need you to do that"

1915:23 Approximate time call with Zimmerman ends

Event 2012571669

1916:43 911 call placed by [REDACTED] where Zimmerman is heard screaming for help

1917:20 Shot fired; screams from Zimmerman cease

Event 20120571671

1917:40 Officer T. Smith arrives on scene

1919:43 Officer T. Smith locates and places Zimmerman in custody

[REDACTED]

On 2/28/2012 at 1030 hours I met with Tracy Martin, and [REDACTED] at the Sanford Police Department. The purpose for this meeting was to brief the decedent's next of kin as to the progress of this investigation. Mr. Martin, concerned over there being no arrest made in the shooting death of his son, was advised of the nature of this case, and ultimately assured that a proper investigation would be conducted. Mr. Martin acknowledged the complexity of this case prior to departing.

On 02/28/2012, Investigator Trekeli Perkins received a telephone call from an unidentified female. This female, who refused to provide her name, call back number, or any other type of contact information, disclosed to Inv. Perkins that George Zimmerman has racist ideologies, and that he is fully capable of instigating a confrontation that could have escalated to the point of Zimmerman having to use deadly force. Inv. Perkins was able to record a portion of his conversation with this anonymous female and said recording was placed on a compact disc and submitted as evidence. No other information has been obtained to corroborate this anonymous female's information and her identity has not been established.

[REDACTED]

Research on the prior incident referred to by Zimmerman revealed that Zimmerman, on 2/2/2012, called in a suspicious person at 1460 Retreat View Circle. Subsequent police response showed the person described by Zimmerman as staking out this residence, identified by Zimmerman as a black male, in a black leather jacket, and printed pants, had departed the area prior to police arrival, and criminal offense report was made (SPD Event 20120332595).

On 3/1/2012, at approximately 1900 hours, while conducting a re-canvass of the neighborhood, I located [REDACTED] at [REDACTED]. [REDACTED] stated she was home on the evening of 2/26/2012 at approximately 1915 hours when she heard a commotion coming from the walkway behind her residence. [REDACTED] states she looked out her sliding glass door and observed two men chasing each other, a fistfight between the two men, and then she heard a gunshot. When asked to clarify her observations, she stated she could not identify either of the two men, but she did state the person in pursuit of the person being pursued was approximately 10' -12' behind. On 3/8/2012 I called and left a message for [REDACTED] in order to coordinate a second interview. On 3/9/2012 at 1826 hours I re-interviewed [REDACTED] at the Sanford Police Department. [REDACTED] stated that what she witnessed was only a "glance" at the happenings outside of her residence, and only after she had removed her contact lenses. Her

vantage point was from the upstairs bedroom of her residence, and she stated the chasing she saw was in the direction towards the "T" where the walkway leads to either Retreat View Circle or Twin Trees Lane. [REDACTED] could not distinguish who was chasing whom, and cannot identify either of the persons she witnessed on the evening of 2/26/2012. This interview was digitally recorded and submitted as evidence.

On 3/1/2012, at approximately 2100 hours, I conducted a telephonic interview with [REDACTED] and [REDACTED] and was at home at the time of the incident. She states she was in her kitchen when she heard what she interpreted as someone crying, or moaning in desperation, before hearing a gunshot. Upon investigating, she observed a male standing over another individual who was lying on the ground. She states the individual standing over the other individual appeared to be holding the person on the ground by pressing on his back. She stated it was too dark to distinguish who was standing or who was on the ground. [REDACTED] could not provide any other information, however her friend, [REDACTED] who was assisting with translation, was adamant that there was no physical fighting at the time when the gunshot rang out. Based on these statements, I requested both [REDACTED] and [REDACTED] appear at the police department for more thorough interviewing in a controlled setting. Both [REDACTED] and [REDACTED] agreed to interviewing, which was scheduled for 3/2 at 1830 hours.

On 3/02/2012 at 1856 hours, I re-interviewed [REDACTED] at the Sanford Police Department. [REDACTED] stated she was home at the time of this incident. She stated that while inside of her kitchen, she heard someone crying, just prior to hearing a gunshot ring out. She stated that upon investigating, she observed one individual standing over another individual who was lying on the ground. She called out "what's going on out there?" She stated the person standing over the other person did not respond to her. After repeating "What's going on out there?" the person standing over the other person stated "just call the police". [REDACTED] states she noticed the person on the ground was face down only after police arrived on scene. [REDACTED] could not provide any information pertaining to how the confrontation between the Zimmerman and Martin originated, and she could not articulate anything reference words spoken between the two. When asked to best describe the crying or sobbing she heard, she stated it was if coming from a young person, and the tone was that of fear, and/or complaining. [REDACTED] stated she could not positively identify Zimmerman or Martin due to the poor lighting conditions. [REDACTED] interview was digitally recorded, placed on a compact disc, and submitted into evidence.

On 3/2/2012 at 1120 hours I interviewed [REDACTED] at the Sanford Police Department. [REDACTED] stated she and [REDACTED] were inside of their residence at [REDACTED] on 2/26/2012 at the time of this incident. When asked what she witnessed, she corrected me by stating she did not see anything, but she had heard what she perceived to be arguing coming from the walkway behind her residence. She stated she could not decipher what words were being spoken between the arguing parties, but stated there appeared to be three (3) exchanges of words to the argument. When asked if she was acquainted with George Zimmerman, she replied in the affirmative, and she knows him to be an even-tempered "laid back" type of person. She stated she perceived him as being passionate about the neighborhood watch program, and stated she "could see him" confronting someone he perceived as a threat to the neighborhood. [REDACTED] could not provide any information pertaining to how the violent episode between George Zimmerman and the decedent occurred and stated she was not familiar with the decedent. [REDACTED] interview was digitally recorded, placed on a compact disc, and submitted into evidence.

On 3/2/2012 at 1132 hours, I interviewed [REDACTED] who resides at [REDACTED] stated he was at home on 2/26/2012 at approximately 1910 - 1915 hours. He stated he was with [REDACTED] watching television in the living room of their residence. He stated that the sliding glass door to his residence was wide open. He states he and [REDACTED] heard a "scuffle" or "rustling of bushes" coming from behind his residence, and upon first impression, he thought it might have been some rowdy teenagers. [REDACTED] stated that the tone of voices became more "serious" and then thought it was several people possibly attacking one person. [REDACTED] articulated the sounds he heard as "ah, ah, ah", and then he heard the same voice yelling "help!, help!", approximately twenty (20) times. He then heard a "pop", ran upstairs, and then heard someone saying "I've got a gun, I've got a gun", "take my gun from me". Upon inquiry, he stated he did not see anyone due to the fact that in order to see what was going on outside of his residence he would have had to move the blinds over his windows in such a way that the person(s) outside would see [REDACTED] which is something he wanted to avoid out of concern for their personal safety. [REDACTED] could not provide any information pertaining to the origin of the confrontation between Zimmerman and Martin. His interview was digitally recorded and it was placed on a compact disc and submitted into evidence.

On 3/2/2012 at 1914 hours, [REDACTED] arrived at the Sanford Police Department. She resides at [REDACTED] and was home on 2/26/2012 when this incident occurred. She stated that while in the kitchen of the residence with the window open, she heard a "whining" sound, and she didn't hear any words spoken, but she deduced it was a sound of distress. She stated she and her roommate went to the sliding glass door when they heard a gunshot. She stated she observed a male standing over another male who was lying on the ground. She stated she retrieved a telephone and called 911. She stated she does not know why

the incident occurred, and could not provide any other information pertaining to the occurrences prior to her hearing the "whining" sounds she heard. [REDACTED] interview was digitally recorded, placed on a compact disc, and placed into evidence.

On 3/5/2012 at 1700 hours at [REDACTED] I met with [REDACTED] and [REDACTED] (age 13). I interviewed [REDACTED] due to the possibility of him being a witness, after learning [REDACTED] had placed a 911 call on 2/26, and she had stated [REDACTED] had told her about "someone being shot". Also present during this interview was [REDACTED] and Investigator D. Singleton. [REDACTED] stated he observed "someone laying on the ground that looked like they couldn't get up and was yelling for help". Upon inquiry, he could not say the race of the person lying on the ground, he looked like he had a red shirt, he didn't hear any arguing, and he didn't see anyone else other than the person on the ground. [REDACTED] impression was that someone had perhaps fallen down due to the wetness of the ground and had possibly broken their leg. [REDACTED] interview was digitally recorded, placed on a compact disc, and submitted into evidence.

On 3/8/2012, this case was presented to ASA James Carter in a meeting conducted at the Sanford Police Department.

On 3/9/2012 I received a fax from Altamonte Family Practice, which contained the medical records identifying the injuries sustained by Zimmerman on the evening of 2/26/2012. Said medical records list Zimmerman's injuries as:

1. Open wound of scalp, without mention of complication
2. Nasal bones, closed fracture
3. Assault by other specified means

On 03/10/2012 at approximately 1330 hours, I interviewed [REDACTED] at her residence, [REDACTED] whose identity was made known due to her having called 911 on 2/26/2012 at 1918 hours, agreed to being interviewed (digitally recorded) at her residence. Upon Inquiry, [REDACTED] states she had just arrived home when she was about to let her dog go outside her back porch area when she heard a voice crying for help. She stated she looked through her back sliding glass door and observed an individual lying on the ground, apparently calling for help. She stated she observed a neighbor, whom she could not identify, asking the person on the ground if he was "okay" and if the person on the ground wanted him to call 911. [REDACTED] states that upon hearing the term "911", she chose to secure her sliding glass door, and retreated to the bathroom of the second floor of her townhome. She stated that as she raised the window of the bath room, in order see what was happening with the person laying on the ground, she heard a "pop" noise that she construed to be a gunshot. She stated that upon reacquiring a view of the occurrences, she observed a female and male giving CPR to the person on the ground. Upon inquiry, [REDACTED] states she did not witness anyone fighting with anyone, and she reiterated she did not witness the event in its entirety.

On 3/10/2012, at approximately 1310 hours, I attempted to contact [REDACTED] [REDACTED] in order to re-interview her pertaining to her 911 call placed on 2/26. I left a business card on her front door and have left two messages on her cell phone voice mail.

Investigative findings show that on 2/26/2012 at approximately 1912 hrs George Michael Zimmerman initiated a nonemergency call to Sanford Police dispatch to report a suspicious person. Zimmerman reported a suspicious person, Trayvon Martin, whom he observed entering the gated community of The Reserve at Twin Lakes on foot, walking between residences from the northwest. [REDACTED]

Investigation reveals that on August 3, August 4, and October 6, 2011, and February 2, 2012, George Zimmerman reported suspicious persons, all young Black males, in the Retreat neighborhood to the Sanford Police Department. According to records checks, all of Zimmerman's suspicious persons calls while residing in the Retreat neighborhood have identified Black males as the subjects.

[REDACTED]

[REDACTED]

[REDACTED]

At 1916 hours, a 911 call, placed by [REDACTED] was received where Zimmerman can be heard in the background frantically yelling for help. At 1917 hours a gunshot was heard in the background of the [REDACTED] 911 call, and moments later Officer Tim Smith arrived on scene.

[REDACTED]

Attempts to locate additional witnesses have consisted of multiple canvasses of the neighborhood on the evenings of 2/26/2012, 2/27/2012, and 3/1/2012. The distribution of informational flyers throughout the gated community was completed on 2/29/2012 and a community meeting, which was held on March 1, 2012.

All digitally recorded interviews were submitted as evidence, and all forensic laboratory requests are being submitted to the Florida Department of Law Enforcement for analysis.

Based upon the facts and circumstances outlined in this narrative, I believe there exists probable cause for issuance of a capias charging George Michael Zimmerman with Manslaughter, in violation of Ch. 782.07 FS. This case is being forwarded to the Office of the State's Attorney as a request for capias.

CONCLUSION:

Case forwarded to the Office of the State's Attorney

BLACK 9MM KEL TEK PF9 SEMI AUTO HAND GUN / BLACK HOLSTER / MAGAZINE V

JR-2 BUCCAL SWABS- ZIMMERMAN

Two (2) buccal swab samples collected from the cheeks (1-L, 1-R) of George Michael Zimmerman, W/M, D.O.B.: 10/05/1983, while at the Sanford Police Department.

DMS-1 (1) PHOTO CD

One (1) photo CD containing digital images of the crime scene and Zimmerman, George Michael, injuries.

DMS-2 KEY AND FLASHLIGHT

One (1) Honda brand name key and one small silver colored flashlight key chain, located and collected in the grass of a court yard between buildings. Object marker # 1.

DMS-3 PLASTIC BAG

One (1) tan colored plastic bag located and collected on the sidewalk located and collected in the grass of a court yard between buildings. Object marker # 2.

DMS-4 PLASTIC BAG

One (1) white colored plastic bag containing suspected blood evidence, located and collected in the grass of a court yard between buildings. Object marker # 3.

DMS-5 FIRST AID KIT

One (1) first aid kit located and collected in the grass of a court yard between buildings. Object marker # 4.

DMS-6 FLASHLIGHT

One (1) black colored flashlight located and collected in the grass of a court yard between buildings. Object marker # 5.

DMS-7 CELL PHONE

One (1) Tmobile brand name cell phone located and collected in the grass of a court yard between buildings. Object marker # 7.

DMS-8 ARIZONA TEA CAN

One (1) Arizona brand name tea can located and collected from a top the medial blanket over the victim.

DMS-9 \$ 40.15 US CURRENCY

Forty dollars and fifteen cents (\$40.15) located and collected from within the victim's pockets.

DMS-10 PERSONAL EFFECTS

One (1) red "711" brand name lighter, photo button, bag of skittles, and headphones, located and collected from within the victim's pockets.

DMS-11 (1) CARTRIDGE CASE

One (1) cartridge case with head stamp "9mm Luger S&B" located and collected from within the court yard. Object marker # 8.

DMS-12 GSR KIT - ZIMMERMAN

One (1) gun shot residue kit collected from Zimmerman at the Sanford Police Department on 02/26/2012.

DMS-13 LEFT SHOE AND SOCK

One (1) brown colored left boot, size 10, and one (1) blue colored sock collected from Zimmerman at the Sanford Police Department.

DMS-14 RIGHT SHOE AND SOCK

One (1) brown colored right boot, size 10, and one (1) blue colored sock collected from Zimmerman at the Sanford Police Department.

DMS-15 JEANS AND BELT

One (1) pair of "Buffalo Jeans" brand name, size 38, blue colored jeans and one (1) belt collected from Zimmerman at the Sanford Police Department.

DMS-16 SHIRT

One (1) grey colored "Layer 8 Performance" brand name long sleeved shirt, size large from Zimmerman at the Sanford Police Department.

DMS-17 USED MEDICAL SUPPLIES

One (1) yellow medical blanket, rescue mask, and several pairs of gloves that were used by victim at the scene.

DMS-18 911 CALLS

One (1) CD containing the 911 calls made at the time of the shooting collected from the Volusia County Sheriff's Department Com Center.

DMS-20 (1) L/P CARDS

One (1) L/P cards lifted from the firearm located with in item # TS-1.

DMS-21 (4) SWABS

Four (4) swabs of suspected DNA evidence collected from the grip, trigger, and slide, of the firearm located with in item # TS-1.

ME-1 HAIR STANDARDS

V. C. M. E. O. SUBMISSION

Head and pubic hair collected from the victim during the autopsy performed at the Volusia County Medial Examiner's Office on 02/27/2012.

ME-2 FINGERNAIL SCRAPINGS

V. C. M. E. O. SUBMISSION

Fingernail scrapings from the right and left hand collected from the victim during the autopsy performed at the Volusia County Medial Examiner's Office on 02/27/2012.

ME-3 FTA CARD

V. C. M. E. O. SUBMISSION

FTA card collected from the victim during the autopsy performed at the Volusia County Medial Examiner's Office on 02/27/2012.

ME-4 PROJECTILE AND FRAGMENTS

V. C. M. E. O. SUBMISSION

Suspected projectile and fragments collected from the victim during the autopsy performed at the Volusia County Medial Examiner's Office on 02/27/2012.

ME-5 FINGERPRINT CARD

REPORT OF INVESTIGATION

CASE NUMBER: 201250001136	Page 2 of 7
INVESTIGATOR: Serino, Christopher F	

DETAILS:

On 03/10/2012 at 1330 hours, I interviewed [REDACTED] at [REDACTED]. She stated she had just arrived at her residence at approximately 1900 on 2/26/2012. She stated she opened her back sliding glass door in order to let her dog out. Upon opening the door, she noticed her neighbor, believed to be [REDACTED] at his back porch. She noticed her neighbor talking to someone, and she noticed someone else, who she identified as "the kid", laying on the ground. She stated she could hear the person lying on the ground, making a groaning noise, which she enunciated as "ohh, ohh, help me, help me or something like that". She stated that at first she associated the sounds she heard as her elderly neighbor possibly having a heart attack. She stated she then heard her neighbor say "okay, I'm going to call 911". She stated that upon hearing her neighbor speak the numbers "911", she immediately pulled her dog into her residence, closed her sliding glass door, and set the door's alarm. She then went upstairs, in order to watch the occurrences from the safety of her upstairs restroom window, which faces the to the rear of her condo. She stated that as she opened the window in her restroom, she heard a "pop" sound, which she interpreted as a gunshot. [REDACTED] stated she could not be certain as to the exact time she heard the gunshot or "pop" sound. She stated that she then called 911. She stated she did not see anyone in her observations other than her neighbor, and the person on the ground. She stated she did not witness any type of arguing, fighting, or other physical contact between anyone. She stated she "must have come in after the fact", and she could not determine the ethnicity of the person on the ground. Upon completing our interview, [REDACTED] agreed to re-enact her steps, in order to establish an approximate time frame between her hearing her neighbor say "911", and the time she opened the window to the restroom of the second floor of her condo. Elapsed time was approximately 60 seconds.

REPORT OF INVESTIGATION

CASE NUMBER: 201250001136

Page 2 of 7

INVESTIGATOR: Serino, Christopher F

DETAILS:

On 2/28/2012 at 1030 hours, I met with Tracy B. Martin (next-of-kin) to the decedent, Trayvon Martin, and [REDACTED] ([REDACTED]), at the Sanford Police Department 815 W. 13th Street. The purpose for this meeting was to provide the decedent's next of kin with a status update of the progress of the investigation into the shooting death of his son, Trayvon Martin.

In order to provide a better understanding to Mr. Martin as to why the individual who shot his son was not arrested and charged with homicide, I decided to allow Mr. Martin to hear all six 911 calls received by the Seminole County Communications Center regarding the incident involving his son and George Zimmerman. In order to facilitate this, I escorted Mr. Martin and [REDACTED] from the interview room area to my work station desk. I played the recordings on my desktop computer, and upon playing the 911 call placed by [REDACTED] in which a voice is heard in the background yelling for help multiple times, I asked Mr. Martin if the voice calling for help was that of his son. Mr. Martin, clearly emotionally impacted by the recording, quietly responded "no". This encounter was not audio recorded, and no further questioning in the matter was conducted. Sgt. Leon Celsa was present during the playing of the 911 tapes for Mr. Martin.

DETAILS:

On 3/21/2012 I received an email at my Sanford Police email address from Sanford Police Officer Michael Wagner. The email, received at 0439 hours, on 3/21/2012 contained two attachments; one attachment (081.120.jpg) contained a photographic image of George Zimmerman, and the other attachment (081.121.jpg) contained the photographic image of Trayvon Martin. Officer Wagner informed me that these two photographs were taken by him while on the crime scene at the Retreat at Twin Lakes, on 2/26/2012.

On 3/22/2012 at approximately 1200 hours, both images were added to this report. I also requested Officer Wagner provide a supplemental narrative pertaining to these images.

Supervisor's Signature/Approval	Date:

REPORT OF INVESTIGATION

CASE NUMBER: 201250001136	Page 2 of 7
INVESTIGATOR: Serino, Christopher F	

DETAILS:

On 02/26/2012 at approximately 1935 hours, I was contacted by Officer T. Smith in reference to responding to Retreat at Twin Lakes to process a homicide scene. I arrived on scene at approximately 1955 hours and met with Officer Ayala and Officer Mead who briefed me on the scene. Currently at this time in the evening, it was dark out and we were experiencing intermittent showers.

At that time, I walked through the scene with the officer's and they pointed out items of evidence that were already located, it was still raining at this time. It was dark outside, raining off and on, and there was not much light lighting up in the courtyard. There were a set of keys containing a small flash light that was on, a cell phone, larger flashlight, two plastic bags, first aid kit, medical supplies, the victim's body that was covered by a yellow medical blanket, and an Arizona tea can. According to Officer's on the scene, the Arizona tea can was originally located in the front pocket of the victim's jacket. I then retrieved my camera and started to photograph the scene while I waited for the Volusia County Medical Examiner's Office transport services to arrive. After my photographs of the initial scene were completed, Sgt Ciesla and I measured the items on the scene and then I collected them. The Volusia County Medical Examiner's Office arrived on scene and moved the victim. The victim had \$ 40.15 in US currency, a bag of skittles, red lighter, headphones, photo pin in his pockets or on him. I also noticed and documented that there was only a single gun shot wound to the chest. After the victim was transported, Sgt. Ciesla and I looked for a cartridge case while it was still raining. Sgt. Ciesla utilized a metal detector as I searched in the areas the detector would detect. A short time later, a 9mm Luger S&B cartridge case was located, documented, and recovered. All evidence will be transported to the Sanford Police Department and logged into evidence.

I responded to the Sanford Police Department on 01/26/2012 at approximately 2315 hours and met with Office T. Smith. Officer T. Smith assisted me in meeting with the subject in interview room # 2 to photograph his clothing, injuries, hands, collect possible gun shot residue, and to collect his clothing. After I photographed Zimmerman's clothing, hands, and injuries, I asked him if he had any other injuries that were not visible. Zimmerman stated that he did not other than his back hurting but he did not think he had any cuts or bruises. A short time later, his wife arrived at the Sanford Police Department and provided us with a change of clothes for Zimmerman. At that time, Zimmerman changed his clothing and placed them into brown paper bags that I provided for him. When he was done changing, he was escorted back to the interview room. All of this evidence will be logged into evidence.

On 02/27/2012 at approximately 1235 hours, I responded to Retreat at Twin Lakes to take some photographs of the courtyard in the daylight.

On 02/28/2012 at approximately 1030 hours, I responded to the Volusia County Medical Examiner's Office to retrieve the evidence that was documented and collected during the autopsy of the victims. The evidence will be transported to the Sanford Police Department and logged into evidence.

I heard yelling out back in grass area of home. Was not sure at first but after heard "HELP" yell I opened blinds, and saw clothing but nothing dark outside. I opened door and saw a guy on the ground getting hit by another man on top of him in a straddle position hitting a guy in a Red shirt or sweater at Red top. The guy under bottom getting hit was yelling help (Guy hitting him on ground was moving Red clothing off him). I said I was calling the cops and ran upstairs then heard a gun shot. When I got upstairs I saw the guy on top who was hitting the guy in the Red layed out on the grass as if he had been shot. Also saw the guy in Red standing near end of sidewalk where 2/3 guy with flashlight possibly neighbors were talking to him asking what happened.

Heard some shuffling and loud talking outside our back door. Muted tv because it got louder and wanted to hear what was going on. Heard a man yelling but couldn't make out what he was saying then same man started yelling help. We called 911 and while on phone heard gun shot. Ran upstairs so couldn't hear anymore until police were here.

Watching TV from my upstairs bedroom heard loud voices thought it would be someone walking their dog, most people do that. I kept watching TV & heard the loud voices again. I looked at my window & could not see w/ my light on so I shut it off then I heard someone making a noise like help help, I grabbed my phone & dialed 911. I could only see two men on the ground. I heard a pop noise (more than 1) I think & thought to myself is that what a gun sounds like? Then next thing I can remember is seeing a large man up standing away from the body I saw laying on the ground. I believe that larger man was the one getting up first. Then a man came down the side walk w/ a flash light to the man who was standing & they were talking. But it was frightening to see the other man still on the ground. Then I saw the man who got up put his hands up & another man came w/ flash light & he had cuffed him.

WITNESS STATEMENT

DATE: 3/16/12 TIME: 7:17 CASE: _____

WITNESS INFORMATION:

NAME: _____

ADDRESS: _____

CITY/ST/ZIP: Sanford, FL 32771 PHONE: _____

STATEMENT:

On February 26th approximately between 7pm - 7:15pm I was in my bedroom facing the side walk that is a common area where people walk which faces south in the complex. I heard loud voices, one was very dominant, but did not look out the closed window. The voices stopped, but when I laid on my bed to read, I heard the loud voices again and got up to look to see who it was. I had to open the window to see. But, because it was dark + I had my night light on to read I could not see anything with the glare. So I shut the light off and knelt down to look out the open part of the blinds, now I had a clear view of two people on the ground one on top of the other. At that time I felt that something horrible was happening, knew I had to

call 911. My phone was to my right on the night stand, I remained kneeling and phoned 911. As I was dialing I was listening to horrifying yelling for helping with a second cry that was a yelp. I believe it was not the loud voice I heard in the argument, or the aggressive voice I heard earlier. I was on the phone with 911 man and was telling him something horrible is happening and asked him, if he can hear it + placed my phone to the window screen as I was watching. As I watched bare man on top of another + on the phone I heard a popping noise and continued to tell the 911 man hurry hurry and get some one here. Shortly after a man got up, he was a broad built man and walked approximately 10ft to 20ft away from the other person who was still

Laying on the ground face down. The broad built man was now closer to my window. He was standing close to the small tree. I noticed the person on the ground, face down was not moving and appeared to be a boy. The broad built man remained standing there and put his hand to his head. Now I watched a man with a flash light run down the sidewalk and talked to him: (the broad built man). Next another man came running down the same sidewalk and approached the broad built man to his back, he had his both hands up^{now} and that man had cuffed him. ~~Next~~ The man^{now} who did the hand cuffing appeared to be a police officer and he took him away. The person on the ground still remained motionless. Now I can hear all sirens and police running to the scene. I remained on the phone with Gillman because I ~~seem~~ still was shaken.

STATEMENT:

I walked out my front door and a female neighbour asked what was wrong, and I told her "I saw it, I saw it" and she said let me bring you to the police who were at the scene. I approached the lady police officer, I believe her name is Serena; I told her what I saw and she told me she will have an officer come in my home + take a statement. A male officer knocked my back screen sliding door came in + told me to fill out in writing what I witnessed and he left me with the form. I completed the statement and looked for him outside the sliding door and said here it is. He told me the investigating officer will come see me. Later two officers came to my front door and the one officer told me he was the investigator.

who was going to take a taped statement. So I gave him my statement on tape. After I completed the statement, I cried and told him I'll never forget the cries for help and wish I could have helped. And the investigator by the name of Chris told me "If it makes you feel any better the cries for help were not the person that died" and your statement was the same as the other witnesses. I asked him if I could show him where I witnessed the shooting and he said "no I don't need to see it".

Q. Were you Able To See The Boy Was Wounded?

A. No, I Couldn't Tell It Was Bionic.

Q. What About The Brown Bullet Proof Clothing?

A. Yes, When He Was Standing Close To Where I Was Observing.

STATEMENT:

From my window, I could see he had a short sleeve shirt on.

Q. Were you able to see the color?

A. All I can say, it wasn't black and I believe it might have had a collar.

Q. Did you see a gun?

A. No.

Q. Could you see the race of the boy?

A. The was looking face down.

Q. Could you see the race of the broad build man?

A. I know he wasn't a black man and possibly Hispanic, and dark facial hair.

Q. Did you hear someone call for help?

A. Yes.

Q. Who do you think asked for help?

A. The boy.

Q. How Could You Distinguish The Voice For Help?

A. It Sounded Like A young Boy Voice.

Q. How Did You Know To Look out of Your Window?

A. I heard Someone very loud voice. It was Dwindling And Angry.

Q. Was it Dwindling And Argumentative.

A. Yes.

Q. When You Looked out of The Window, Did You See Anyone?

A. Not Until I Shut The Night Light Off, And Then I Could See Two Men on The Ground with one on top of the other.

Q. Who Was on Top And Who Was on Bottom?

A. I Could Not Tell Until After I heard The Shots, And The Broad Built Man Was Up, And The Smaller person Remained on The ground Face Down.

Q. How many Shots Did You hear?

A. I Believe it Was more Than One.

STATEMENT:

Q. How long were the two individuals on the ground?

A. After the shots the broad built man was standing up and moved closer to where I was watching from my top bedroom window.

Q. When you placed a call to report what you saw to the 911 operator, did he tell you anything?

A. Yes, that I was not the first 911 caller.

Q. Did the 911 operator tell you anything else?

A. Yes, someone had called previously about a suspicious person and a police officer was on his way.

Q. What did you see after you observed the broad built man leave identified as "Mr. Zimmerman" near the trail?

A. I saw a man, possibly a variant running toward the broad built man with a flashlight and they talked. I could not hear the conversation. A few minutes later

Another Man Ran To The Brown Built Man AS he Raised his hands in The Air, AS though He Was Surrendering. The Man Then Hand Cuffed The Brown Built Man Behind his Back And Took him Away.

Q. You mentioned you heard a help and a yell, what did you think at that time.

A. It was a person in a unbelievable need for help. The yell was very awful, and more ~~appealing~~ ^{pleading} appealing than the first.

Q. When did the police come to speak to you?

A. After I went outside and told a female police officer that I had witnessed the incident from my bedroom window.

Q. The first officer arrived where?

A. My back sliding door.

Q. What did he say?

A. He left a form for me to fill out and said ~~OK~~

Already And Full This Out.

Q. When Did The Phone Call Detection Come?

A. About 1 To 2 Hours Later.

Q. What Did He Do?

A. He Came in With Another Officer And Put Down A Tape Recorder And Took A Statement.

Q. Did You Offer To Show him Where You Watched The Incident?

A. Yes I Wanted him to Come up Stairs to Show him What I Saw Everything, When he Replied Now That's Not Necessary, It's OK.

Q. Were Your Emotional While Talking To The Detective And Being Taped?

A. Yes Emotional But Calm Enough To Tell What Had Happened.

Q. Did You Say Anything Else After He Finished Taping You?

SIGNATURE: _____ WITNESS: _____

I was in the kitchen and heard someone yelling; almost crying. Then I heard a gunshot, I went outside and saw a man on top of a guy laying on the ground. He was putting his hands on his neck or chest. I yelled "everything ok" and he did not reply. I said it again "is everything ok?" he said to call the police. My roommate called 911.

From the distance I could not tell his skin color, I also could not tell if he was trying to find something in his pockets. He stood up and took a couple of steps away and put his hands on his head then walked back over to the guy on the ground. He looked at him for a minute then started to walk away toward the road. That is when the police walked up.

It looks like the man was wearing a big red & black shirt, and jeans. The shirt had a type of pattern like squares or plaid. He had short hair. He looked to be around 5'9 in height.

I was sitting on my sofa watching tv with my fiance with the door open to the back porch. All of a sudden we heard people scuffling in the back area for a few seconds. Then we heard someone screaming for help at least 20 times. We both were making our way upstairs with 911 on the phone when we heard a loud pop of an m. We stayed upstairs until we heard cops outside.

REFERENCE:

This report is in reference to the following evidence submitted to the Florida Department of Law Enforcement on March 01, 2012 by C. Taylor and on March 20, 2012 by D. Smith. This report may contain conclusions, opinions, and/or interpretations made by the author.

EVIDENCE:

FDLE Item#	Agency Exhibit#	Description
3	DMS-21	Swabs collected from the gun within item # TS-1 DMS-21A Swab collected from grip DMS-21B Swab collected from trigger DMS-21C Swab collected from slide DMS-21D Swab collected from holster
4	JR-2	Buccal swabs represented as being from George Michael Zimmerman
5	ME-2	Fingernail scrapings represented as being from Trayvon Benjamin Martin ME-2A Right hand ME-2B Left hand
6	ME-3	FTA card represented as being from Trayvon Benjamin Martin
15	ME-8	Shirt represented as being from Trayvon Benjamin Martin
18	ME-12	Hoodie jacket represented as being from Trayvon Benjamin Martin

Page 1 of 6

Service • Integrity • Respect • Quality

RESULTS:

Exhibit JR-2 Buccal swabs represented as being from George Michael Zimmerman

Exhibit ME-3 FTA card represented as being from Trayvon Benjamin Martin

STR DNA analysis was performed on samples from Exhibits JR-2 and ME-3 utilizing the AmpF/STR Profiler Plus and AmpF/STR COfiler PCR Amplification Kits.

Complete DNA profiles were obtained from Exhibits JR-2 and ME-3.

Exhibit DMS-21 Swabs collected from the gun within item # TS-1

Exhibit DMS-21A gave chemical indications for the presence of blood. Exhibits DMS-21C and DMS-21D failed to give chemical indications for the presence of blood.

STR DNA analysis was performed on samples from Exhibits DMS-21A, DMS-21B, DMS-21C and DMS-21D utilizing the AmpF/STR Profiler Plus and AmpF/STR COfiler PCR Amplification Kits.

Exhibit DMS-21A Swab collected from grip

The mixed DNA profile obtained from Exhibit DMS-21A demonstrated the presence of at least two individuals. A complete DNA profile for the major contributor could be determined.

This major DNA profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2).

The frequency of occurrence of the major DNA profile obtained from Exhibit DMS-21A for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

A DNA profile for the minor contributor(s) could not be determined.

Trayvon Benjamin Martin (ME-3) is excluded as a possible contributor to the mixed DNA obtained from Exhibit DMS-21A.

Exhibit DMS-21B Swab collected from trigger

Due to the limited nature of the DNA results obtained from Exhibit DMS-21B, the data obtained is not interpretable.

Exhibit DMS-21C Swab collected from slide

Due to the limited DNA results obtained from Exhibit DMS-21C, this data is insufficient for inclusion purposes. Results are consistent with the presence of at least one male individual.

No determination can be made regarding the possible contribution of George Michael Zimmerman (JR-2) or Trayvon Benjamin Martin (ME-3) to the limited DNA results obtained from Exhibit DMS-21C.

AVB

Exhibit DMS-21D Swab collected from holster

The mixed DNA profile obtained from Exhibit DMS-21D demonstrated the presence of at least three individuals. A complete DNA profile for the major contributor could be determined.

This major DNA profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2).

The frequency of occurrence of the major DNA profile obtained from Exhibit DMS-21D for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

A DNA profile for the minor contributor(s) could not be determined.

No determination can be made regarding the possible contribution of Trayvon Benjamin Martin (ME-3) to the mixed DNA profile obtained from Exhibit DMS-21D.

Exhibit ME-2 Fingernail scrapings represented as being from Trayvon Benjamin Martin

Exhibit ME-2A gave chemical indications for the presence of blood.

STR DNA analysis was performed on samples from Exhibits ME-2A and ME-2B utilizing the AmpF/STR Profiler Plus and AmpF/STR COfiler PCR Amplification Kits.

Exhibit ME-2A Right hand

No DNA results foreign to Trayvon Benjamin Martin (ME-3) were found on Exhibit ME-2A.

Exhibit ME-2B Left hand

No DNA results were obtained from Exhibit ME-2B.

Exhibit ME-8 Shirt represented as being from Trayvon Benjamin Martin

Exhibit ME-8 gave chemical indications for the presence of blood (stains A, B, D and E).

Exhibit ME-8 failed to give chemical indications for the presence of blood (stain C and general rubbings from cuff/lower sleeve regions on both arms).

Swabbings were collected from the cuff/lower sleeve regions on both arms of Exhibit ME-8 to determine the presence of any foreign DNA.

STR DNA analysis was performed on samples from Exhibit ME-8 (stains A, B, D, E and swabbings from cuffs/lower sleeves) utilizing the AmpF/STR Profiler Plus and AmpF/STR COfiler PCR Amplification Kits.

AKG

Exhibit ME-8 stain A

A complete DNA profile was obtained from Exhibit ME-8 stain A.

This DNA profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2).

The frequency of occurrence of the DNA profile obtained from Exhibit ME-8 stain A for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

There is the possibility of an additional contributor to this DNA profile.

Exhibit ME-8 stain B

A complete DNA profile was obtained from Exhibit ME-8 stain B.

This DNA profile is consistent with originating from a male individual and matches the DNA profile from Trayvon Benjamin Martin (ME-3).

The frequency of occurrence of the DNA profile obtained from Exhibit ME-8 stain B for unrelated individuals in the following populations is approximately:

- 1 in 3.9 quintillion Caucasians
- 1 in 3.0 quadrillion African Americans (Blacks)
- 1 in 290 quadrillion Southeastern Hispanics

Exhibit ME-8 stain D

The mixed DNA profile obtained from Exhibit ME-8 stain D demonstrated the presence of at least two individuals. Results are consistent with the presence of at least one male contributor. DNA profiles for the major and minor contributors could not be determined.

George Michael Zimmerman (JR-2) and Trayvon Benjamin Martin (ME-3) are included as possible contributors to the mixed DNA profile obtained from Exhibit ME-8 stain D.

The combined frequency of occurrence of the mixed DNA profile obtained from Exhibit ME-8 stain D for unrelated individuals in the following populations is approximately:

- 1 in 4.0 million Caucasians
- 1 in 2.1 million African Americans (Blacks)
- 1 in 6.4 million Southeastern Hispanics

Exhibit ME-8 stain E

A complete DNA profile was obtained from Exhibit ME-8 stain E.

This profile is consistent with originating from a male individual and matches the DNA profile from Trayvon Benjamin Martin (ME-3).

ALG

The frequency of occurrence of the DNA profile obtained from Exhibit ME-8 stain E for unrelated individuals in the following populations is approximately:

- 1 in 3.9 quintillion Caucasians
- 1 in 3.0 quadrillion African Americans (Blacks)
- 1 in 290 quadrillion Southeastern Hispanics

Exhibit ME-8 right cuff/lower sleeve

No DNA results foreign to Trayvon Martin (ME-3) were obtained from Exhibit ME-8 right cuff/lower sleeve.

Exhibit ME-8 left cuff/lower sleeve

The mixed DNA profile obtained from Exhibit ME-8 left cuff/lower sleeve demonstrated the presence of at least two individuals. Assuming Trayvon Benjamin Martin (ME-3) is a contributor to the mixture, foreign DNA results were obtained. Due to the limited nature of these results, this data is insufficient for inclusion purposes.

No determination can be made regarding the possible contribution of George Michael Zimmerman (JR-2) to the mixed DNA profile obtained from Exhibit ME-8 left cuff/lower sleeve.

Exhibit ME-12 Hoodie jacket represented as being from Trayvon Benjamin Martin

Exhibit ME-12 gave chemical indications for the presence of blood (stains A and C).

Exhibit ME-12 failed to give chemical indications for the presence of blood (stain B and general rubbings from cuff/lower sleeve regions on both arms).

Swabbings were collected from the cuff/lower sleeve regions on both arms of Exhibit ME-12 to determine the presence of any foreign DNA.

STR DNA analysis was performed on samples from Exhibit ME-12 (stains A, C and swabbings from cuff/lower sleeves) utilizing the AmpF/STR Profiler Plus and AmpF/STR Cofiler PCR Amplification Kits.

Exhibit ME-12 stain A

A partial DNA profile was obtained from Exhibit ME-12 stain A.

This partial DNA profile is consistent with originating from a male individual and matches the DNA profile from Trayvon Benjamin Martin (ME-3).

For 11 loci, the frequency of occurrence of the partial DNA profile obtained from Exhibit ME-12 stain A for unrelated individuals in the following populations is approximately:

- 1 in 3.7 quadrillion Caucasians
- 1 in 14 trillion African Americans (Blacks)
- 1 in 340 trillion Southeastern Hispanics

Exhibit ME-12 stain C

No DNA results were obtained from Exhibit ME-12 stain C.

Exhibit ME-12 right cuff/lower sleeve

No DNA results foreign to Trayvon Benjamin Martin (ME-3) were obtained from Exhibit ME-12 right cuff/lower sleeve.

Exhibit ME-12 left cuff/lower sleeve

No DNA results foreign to Trayvon Benjamin Martin (ME-3) were obtained from Exhibit ME-12 left cuff/lower sleeve.

REMARKS:

Exhibits DMS-21, JR-2, ME-2 and ME-3 are being retained.

Exhibits ME-8 and ME-12 were transferred to the Firearms Section (of the Orlando Regional Operations Center) for further analysis and are the subject of a separate report.

The DNA profile developed from Exhibit JR-2 has been entered into CODIS.

The above reported single source frequencies were calculated following the recommendations of the National Research Council (NRC II) utilizing the FBI database (JFS 44:1277-1286, 46:453-489). These numbers are an estimation for which a deviation of approximately +/- 10-fold may exist. The mixture frequency calculations also utilized the FBI database. The results of the amelogenin locus were not used in the statistical calculations.

Abbreviations that may appear in this report are: CODIS *Combined DNA Index System*; DNA *deoxyribonucleic acid*; PCR *Polymerase Chain Reaction*; STR *short tandem repeat*; FBI *Federal Bureau of Investigation*; and JFS *Journal of Forensic Sciences*.

Questions regarding this report should be addressed to: anthonygorgone@fdle.state.fl.us.

AK6

STR DNA analysis was performed on samples from Exhibit DMS-16 (stains A, B, C, D, E, F, I, J, K, L, M, N, O and P) utilizing the AmpF/STR Profiler Plus and AmpF/STR COfiler PCR Amplification Kits.

The same complete DNA profile was obtained from Exhibit DMS-16 stains A, B, C, D, E, F, I, J, K, L, M, N, O and P.

This profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2 in submission 1).

The frequency of occurrence of the DNA profile obtained from Exhibit DMS-16 stains A, B, C, D, E, F, I, J, K, L, M, N, O and P for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

Exhibit DMS-19 Jacket and 2 quarters in a plastic bag represented as being from George Michael Zimmerman

Exhibit DMS-19 (Jacket) gave chemical indications for the presence of blood (stains A, B, C, E, G, I, J, K, L, M, N, O, P, U, V, Z and BB).

Exhibit DMS-19 (Jacket) failed to give chemical indications for the presence of blood (stains D, F, H, Q, R, S, T, W, X, Y, AA, CC, DD and EE).

Exhibit DMS-19 (2 quarters in a plastic bag) was not examined.

STR DNA analysis was performed on samples from Exhibit DMS-19 (stains A, B, C, E, G, I, J, K, L, M, N, O, P, U, V, Z and BB) utilizing the AmpF/STR Profiler Plus and AmpF/STR COfiler PCR Amplification Kits.

Exhibit DMS-19 stains A, B, C, J, K, L, M, O and P

The same complete DNA profile was obtained from Exhibit DMS-19 stains A, B, C, J, K, L, M, O and P.

This profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2 in submission 1).

The frequency of occurrence of the DNA profile obtained from Exhibit DMS-19 stains A, B, C, J, K, L, M, O and P for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

AG

Exhibit DMS-19 stain E

The mixed DNA profile obtained from Exhibit DMS-19 stain E demonstrated the presence of at least two individuals.

A complete DNA profile for the major contributor could be determined. This major DNA profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2 in submission 1).

The frequency of occurrence of the major DNA profile obtained from Exhibit DMS-19 stain E for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

A DNA profile for the minor contributor(s) could not be determined.

No determination can be made regarding the possible contribution of Trayvon Benjamin Martin (ME-3 in submission 1) to the mixed DNA profile obtained from Exhibit DMS-19 stain E.

Exhibit DMS-19 stain G

Due to the limited nature of the DNA results obtained from Exhibit DMS-19 stain G, the data obtained is not interpretable.

Exhibit DMS-19 stain I

The mixed DNA profile obtained from Exhibit DMS-19 stain I demonstrated the presence of at least two individuals.

A partial DNA profile for the major contributor could be determined. This partial major DNA profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2 in submission 1).

For 12 loci, the frequency of occurrence of the major DNA profile obtained from Exhibit DMS-19 stain I for unrelated individuals in the following populations is approximately:

- 1 in 1.6 quadrillion Caucasians
- 1 in 170 quadrillion African Americans (Blacks)
- 1 in 8.5 quadrillion Southeastern Hispanics

A DNA profile for the minor contributor(s) could not be determined.

Trayvon Benjamin Martin (ME-3 in submission 1) is excluded as a possible contributor to the mixed DNA profile obtained from Exhibit DMS-19 stain I.

Exhibit DMS-19 stain N

The mixed DNA profile obtained from Exhibit DMS-19 stain N demonstrated the presence of at least two individuals.

AK6

Assuming two donors to the mixture, a complete DNA profile for the major contributor and a partial DNA profile for the minor contributor could be determined.

The major DNA profile is consistent with originating from a male individual and matches the DNA profile from George Michael Zimmerman (JR-2 in submission 1).

The frequency of occurrence of the major DNA profile obtained from Exhibit DMS-19 stain N for unrelated individuals in the following populations is approximately:

- 1 in 11 quadrillion Caucasians
- 1 in 1.5 quintillion African Americans (Blacks)
- 1 in 57 quadrillion Southeastern Hispanics

The partial minor DNA profile matches the DNA profile from Trayvon Benjamin Martin (ME-3 in submission 1).

For 4 loci, the frequency of occurrence of the minor DNA profile obtained from DMS-19 stain N for unrelated individuals in the following populations is approximately:

- 1 in 2.1 million Caucasians
- 1 in 230,000 African Americans (Blacks)
- 1 in 520,000 Southeastern Hispanics

Exhibit DMS-19 stain U

The mixed DNA profile obtained from Exhibit DMS-19 stain U demonstrated the presence of at least two individuals. DNA profiles for the major and minor contributors could not be determined. Results are consistent with the presence of at least one male individual.

Trayvon Benjamin Martin (ME-3 in submission 1) is included as a possible contributor to the mixed DNA profile.

For 6 loci, the combined frequency of occurrence of the mixed DNA profile obtained from Exhibit DMS-19 stain U for unrelated individuals in the following populations is approximately:

- 1 in 83,000 Caucasians
- 1 in 10,000 African Americans (Blacks)
- 1 in 67,000 Southeastern Hispanics

No determination can be made regarding the possible contribution of George Michael Zimmerman (JR-2 in submission 1) to the mixed DNA profile obtained from Exhibit DMS-19 stain U.

Exhibit DMS-19 stain V

Due to the limited DNA results obtained from Exhibit DMS-19 stain V, this data is insufficient for inclusion purposes. Results are consistent with the presence of a male individual.

No determination can be made regarding the possible contribution of George Michael Zimmerman (JR-2 in submission 1) and Trayvon Benjamin Martin (ME-3 in submission 1) to the limited DNA results obtained from Exhibit DMS-19 stain V.

AV6

Exhibit DMS-19 stain Z

Due to the limited nature of the DNA results obtained from Exhibit DMS-19 stain Z, the data obtained is not interpretable. Results are consistent with the presence of a male individual.

DNA results were consistent with the possible presence of non-human DNA on Exhibit DMS-19 stain Z.

Exhibit DMS-19 stain BB

The mixed DNA profile obtained from Exhibit DMS-19 stain BB demonstrated the presence of at least two individuals. DNA profiles for the major and minor contributors could not be determined. Results are consistent with the presence of at least one male individual.

George Michael Zimmerman (JR-2 in submission 1) is included as a possible contributor to the mixed DNA profile.

For 2 loci, the combined frequency of occurrence of the mixed DNA profile obtained from Exhibit DMS-19 stain BB for unrelated individuals in the following populations is approximately:

- 1 in 58 Caucasians
- 1 in 41 African Americans (Blacks)
- 1 in 57 Southeastern Hispanics

No determination can be made regarding the possible contribution of Trayvon Benjamin Martin (ME-3 in submission 1) to the mixed DNA profile obtained from Exhibit DMS-19 stain BB.

REMARKS:

The information obtained from Exhibits DMS-16 and DMS-19 did not meet the criteria needed to be entered into CODIS.

Exhibits DMS-16 and DMS-19 were transferred to the Firearms Section (of the Orlando Regional Operations Center) for further analysis and are the subject of a separate report.

DNA extracts from Exhibits DMS-16 and DMS-19 are being retained.

The above reported single source frequencies were calculated following the recommendations of the National Research Council (NRC II) utilizing the FBI database (JFS 44:1277-1286, 46:453-489). These numbers are an estimation for which a deviation of approximately +/- 10-fold may exist. The mixture frequency calculations also utilized the FBI database. The results of the amelogenin locus were not used in the statistical calculations.

Abbreviations that may appear in this report are: CODIS *Combined DNA Index System*; DNA *deoxyribonucleic acid*; PCR *Polymerase Chain Reaction*; STR *short tandem repeat*; FBI *Federal Bureau of Investigation*; and JFS *Journal of Forensic Sciences*.

Questions regarding this report should be addressed to: anthonygorgone@fdle.state.fl.us.

REFERENCE:

This report is in reference to the following evidence submitted to the Florida Department of Law Enforcement on March 20, 2012 by D. Smith. This report may contain conclusions, opinions, and/or interpretations made by the author.

EVIDENCE:

FDLE Item #	Agency Item #	Description
----------------	------------------	-------------

The following exhibits are represented as having been recovered from George Zimmerman:

9	DMS-13A	Sock
	DMS-13L	Boot
10	DMS-14A	Sock
	DMS-14R	Boot
11	DMS-15A	Jeans
	DMS-15B	Belt
12	DMS-16	Shirt
13	DMS-19	Jacket

Page 1 of 2

Service • Integrity • Respect • Quality

46

The following exhibits are represented as having been recovered from Trayvon Martin:

14	ME-7A&B	Socks
	ME-7L&R	Shoes
15	ME-8	Sweatshirt
16	ME-9	Pants
17	ME-10	Underwear
18	ME-12	Hooded sweatshirt

RESULTS:

The above exhibits were swept for the presence of trace evidence that is being retained in ten sealed debris folds. In order to prevent contamination, please do not open these debris folds. No comparative examinations have been performed on the trace material recovered from these items.

REMARKS:

The above exhibits are being retained in the laboratory pending possible additional examinations, which will be the subject of separate reports.

Questions regarding this report should be addressed to: alvinguzman@fdle.state.fl.us or Crime Laboratory Analyst Supervisor Dawn Zayonc at (407) 540-3960 or dawnzayonc@fdle.state.fl.us.

Gunshot Residue Section

REFERENCE:

This report is in reference to the following evidence submitted to the Florida Department of Law Enforcement on March 01, 2012 by C. Taylor. This report may contain conclusions, opinions, and/or interpretations made by the author.

EVIDENCE:

FDLE Item#	Agency Exhibit#	Description
2	DMS-12	One gunshot residue collection kit labeled as from George Zimmerman.

RESULTS:

Gunshot Residue (GSR) is the term applied to the minute particles of metal and metal compounds derived from both the primer composition and the projectile emitted by a gun during firing.

GSR was identified by Scanning Electron Microscope (SEM) analysis of the kit collected from George Zimmerman.

GSR analysis cannot determine whether or not an individual has discharged a firearm, it merely identifies the presence of gunshot residue. The presence of GSR on the hands may be the result of activities such as firing a weapon, being in close proximity to a firearm during discharge, or handling an item (such as a firearm or spent cartridge) whose surface bears gunshot residue.

REFERENCE:

This report is in reference to the following evidence submitted to the Florida Department of Law Enforcement on March 01, 2012 by C. Taylor. This report may contain conclusions, opinions, and/or interpretations made by the author.

EVIDENCE:

FDLE Item#	Agency Exhibit#	Description
1	DMS-11	One fired 9mm Luger caliber cartridge case
7	ME-4	One fired bullet jacket portion, two fired bullet jacket fragments and one lead bullet core
8	TS-1	One 9mm Luger caliber Kel-Tec model PF-9 semiautomatic pistol, serial number RJY08, one 9mm Luger caliber cartridge, one holster and one magazine containing six 9mm Luger caliber cartridges

RESULTS:

1 DMS-11 The cartridge case was fired in the TS-1 pistol.

ALS

- 7 ME-4 The bullet jacket portion was fired from the TS-1 pistol.
The two fragments could neither be identified nor eliminated as having been fired from the same unknown firearm or the TS-1 pistol due to damage and a lack of class and individual characteristics.
The core does not display class or individual characteristics and was not further examined.
- 8 TS-1 The pistol was test fired using the submitted magazine and was found to be functional. The trigger pull was measured to be between 4 ½ and 4 ¾ pounds. Images of a cartridge case fired in the pistol were entered into the NIBIN database and compared against images of evidence recovered in other incidents. No associations were made at this time. Your agency will be notified of any future results.
One of the cartridges was used to test fire the pistol; the remaining 6 cartridges and holster were not further examined.

REMARKS:

Tests generated are being returned in the same container as the firearm.

EVIDENCE:

FDLE Item#	Agency Exhibit#	Description
15	ME-8	One light grey Nike sweatshirt
18	ME-12	One dark grey Fruit of the Loom hooded sweatshirt

RESULTS:

15, 18 ME-8, ME-12 The sweatshirts each display a hole located in the upper left chest area. The areas around these holes were microscopically examined and chemically processed for the presence of gunshot residues. Both holes display residues and physical effects consistent with a contact shot.

FDLE NUMBER: 20120501890 Submissions: 2

AS

REMARKS:

Distance tests were conducted using fabric cut from the back of each of the sweatshirts, as well as the Exhibit TS-1 pistol, magazine and one of the TS-1 cartridges from Submission 1. These tests along with the other test materials generated during examination are being returned in the same container as their respective exhibit.

1360 INDIAN LAKE ROAD, DAYTONA BEACH, FL 32124-1001

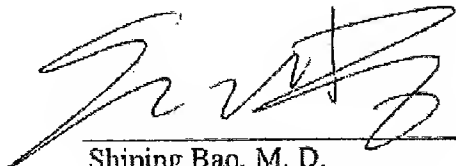

MEDICAL EXAMINER REPORT

Name	Martin, Trayvon	Medical Examiner #	12-24-043
Date of Birth	February 5, 1995	Date of Death (Found)	February 26, 2012
Age	17 Years	County	Seminole
Race	Black	Date of Exam	February 27, 2012
Sex	Male	Time of Exam	1030 Hours

FINAL DIAGNOSES AND FINDINGS

- I. Penetrating Gunshot Wound of the Chest
- A. Entrance: Left chest, intermediate range
 - B. Path of the projectile: Skin, left anterior 5th intercostal space, pericardial sac, right ventricle of heart, and right lower lobe of lung
 - C. Direction of projectile: Directly, front to back
 - D. Exit: None; fragments of projectile recovered in pericardial sac and right pleural cavity
 - E. Associated injuries: Entrance wound; perforations of pericardial sac, right ventricle of heart, right lower lobe of lung with bilateral pleural hemorrhage
 - F. Postmortem radiograph: Metallic fragments of projectile identified

Cause of Death: Gunshot Wound of Chest
Manner of Death: Homicide
How incident occurred: Shot by another person

REPORT OF AUTOPSY**

OFFICIALS PRESENT AT EXAMINATION

None.

EXTERNAL EXAMINATION

The body is secured in a blue body bag with Medical Examiner seal #0000517.

The body is viewed unclothed. The body is that of a normally developed, black male appearing the stated age of 17 years with a body length of 71 inches and body weight of 158 pounds. The body presents a medium build with average nutrition, normal hydration and good preservation. Rigor mortis is complete, and lividity is well developed and fixed on the posterior surfaces of the body. The body is cold to touch post refrigeration. Short black hair covers the scalp. The face is unremarkable. There is average body hair of adult-male-pattern distribution. The eyes are closed and have clear bulbar and palpebral conjunctivae. The irides are brown with white sclerae. There are no cataracts or arcus present. The pupils are equal at 5 millimeters. The orbits appear normal. The nasal cavities are unremarkable with an intact septum. The oral cavity presents natural teeth with fair oral hygiene. The ears are unremarkable with no hemorrhage in the external auditory canals. The neck is rigid due to postmortem changes, and there are no palpable masses. The chest is symmetrical. The abdomen is scaphoid.

The upper and lower extremities are equal and symmetrical and present cyanotic nail beds without clubbing or edema. There are no fractures, deformities or amputations present. The external genitalia present descended testicles and an unremarkable penis. The back reveals dependent lividity with contact pallor. The buttocks are atraumatic, and the anus is intact. The integument is of normal color.

OTHER IDENTIFYING FEATURES

There are identification bands on the ankles.

SCARS

- 1 x ½ inch scar - right shoulder
- 1 x ½ inch scar - right hand

TATTOOS

- Symbol with letters - right arm
- Letters - left wrist

There are no other significant identifying features.

PAGE 3 of 6

Name Martin, Trayvon

ME # 12-24-043

**MEDICAL EXAMINER REPORT
REPORT OF AUTOPSY**

EVIDENCE OF INJURY

Penetrating Gunshot Wound of the Chest:

The entrance wound is located on the left chest, 17½ inches below the top of the head, 1 inch to the left of the anterior midline, and ½ inch below the nipple. It consists of a ¾ inch diameter round entrance defect with soot, ring abrasion, and a 2 x 2 inch area of stippling. This wound is consistent with a wound of entrance of intermediate range.

Further examination demonstrates that the wound track passes directly from front to back and enters the pleural cavity with perforations of the left anterior fifth intercostal space, pericardial sac, right ventricle of the heart, and the right lower lobe of the lung. There is no wound of exit.

Three fragments of projectile are recovered. The lead core is recovered in the pericardial sac behind the right ventricle. Two fragments of the jacket are recovered in the right pleural cavity behind the right lower lobe of the lung.

The injuries associated with the wound: The entrance wound; perforations of left anterior fifth intercostal space, pericardial sac, right ventricle of the heart, right lower lobe of the lung with approximately 1300 milliliters of blood in the right pleural cavity and 1000 in the left pleural cavity; the collapse of both lungs.

Other injuries: There is a ¼ x ¼ inch small abrasion on the left fourth finger.

EVIDENCE OF RECENT MEDICAL TREATMENT

There is a cardiac monitor pad on the left flank.

EVIDENCE OF ORGAN AND/OR TISSUE DONATION

None.

INTERNAL EXAMINATION: The following excludes any previously described injuries.

BODY CAVITIES

The peritoneum is congested, smooth, glistening and essentially dry; devoid of adhesions or effusion. There is no scoliosis, kyphosis or lordosis present. The left and right diaphragms are in their normal location and appear grossly unremarkable.

OFFICE OF THE MEDICAL EXAMINER
FLORIDA, DISTRICTS 7 & 24

PAGE 4 of 6

Name Martin, Trayvon

ME # 12-24-043

MEDICAL EXAMINER REPORT
REPORT OF AUTOPSY

The subcutaneous fat measures 1.5 centimeters and is normally distributed, moist and bright yellow. The musculature of the chest and abdominal area is of normal color and texture.

NECK AND TONGUE

The neck presents an intact hyoid bone as well as the thyroid and cricoid cartilages. The larynx has unremarkable vocal cords and folds that appear widely patent without foreign material. The epiglottis is a characteristic plate-like structure without edema, trauma or pathological lesions. Both the musculature and the vasculature of the anterior neck are unremarkable. The trachea and spine are in the midline, and present no traumatic injuries or pathological lesions. The tongue is unremarkable.

CARDIOVASCULAR SYSTEM

The heart weighs 200 grams and there is no chamber hypertrophy or dilatation. The left ventricular wall is 1.1 centimeters and the right is 0.2 centimeters. The cardiac valves appear unremarkable. The coronary ostia are in the normal anatomical location leading into widely patent coronary arteries. Right dominant circulation is present. The endocardial surface is smooth without thrombi or inflammation. Sectioning of the myocardium presents no gross evidence of ischemic changes either of recent or remote origin. The aortic arch, along with the great vessels, appears grossly unremarkable.

RESPIRATORY SYSTEM

The lungs are collapsed and together weigh 410 grams. There are no gross pneumonic lesions or abnormal masses identified. The tracheobronchial tree and pulmonary arterial system are intact and grossly unremarkable. The pleural surfaces are pink and smooth with focal mild anthracosis.

HEPATOBIILIARY SYSTEM

The liver weighs 1110 grams and presents a brown, smooth, glistening surface. Focal patchy yellow discoloration, due to mild fatty metamorphosis, is present. On sectioning, the hepatic parenchyma is yellow-brown, homogeneous and congested. The unremarkable gallbladder contains approximately 8 milliliters of greenish bile. There is no cholecystitis or lithiasis. The biliary tree is patent. The pancreas presents a lobulated yellow cut surface without acute or chronic pancreatitis.

HEMOLYMPHATIC SYSTEM

The spleen weighs 100 grams and presents a gray-pink intact capsule and a dark red parenchyma. There is no lymphadenopathy. The thymus gland is involuted.

OFFICE OF THE MEDICAL EXAMINER
FLORIDA, DISTRICTS 7 & 24

PAGE 5 of 6

Name Martin, Trayvon

ME # 12-24-043

**MEDICAL EXAMINER REPORT
REPORT OF AUTOPSY**

GASTROINTESTINAL SYSTEM

The esophagus is intact with normal gastroesophageal junctions and without erosions or varices. The stomach is also normal without gastritis or ulcers, and contains 400 milliliters of gastric fluid with food particles. Loops of small and large bowel appear grossly unremarkable. The appendix is unremarkable.

UROGENITAL SYSTEM

The kidneys weigh 100 grams, and 110 grams, right and left, respectively. On sectioning, the cortex presents a normal thickness above the medulla. The renal columns of Bertin extend between the well-demarcated pyramids and appear unremarkable. The medulla presents normal renal pyramids with unremarkable papillae. The pelvis is of normal size and is lined by gray glistening mucosa. There are no calculi. The renal arteries and veins are normal. The ureters are of normal caliber lying in their course within the retroperitoneum and drain into an unremarkable urinary bladder containing approximately 75 milliliters of urine.

The external genitalia present an unremarkable penis without hypospadias, epispadias or phimosis. There are no infectious lesions or tumors noted. The descended testicles are of normal size encased within an intact and unremarkable scrotal sac. There are no abnormal masses or hernias on palpation. The prostate is of normal size and shape and sectioning presents two normal lateral lobes with a thin median lobe forming the floor of the unremarkable urethra. There are no gross pathological lesions.

ENDOCRINE SYSTEM

The thyroid gland is of normal size and shape and presents two well-defined lobes with a connecting isthmus and a beefy-brown cut surface. There are no goitrous changes or adenomas present. The adrenal glands are of normal size and shape. Sectioning presents no gross pathological lesions.

MUSCULOSKELETAL SYSTEM

The ribs, sternum, clavicles, pelvis and vertebral column have no recent fractures. The muscles are normally formed.

CENTRAL NERVOUS SYSTEM

The scalp is intact without contusions or lacerations. The calvarium is likewise intact without bony abnormalities or fractures. The brain weighs 1400 grams and presents moderate congestion of the leptomeninges. The overlying dura is intact and unremarkable. The cerebral hemispheres reveal a normal gyral pattern with severe global edema. The brainstem and cerebelli are normal in

Decedent: Martin, Trayvon

Case Summary:

ECC contacted FI Malphurs of an apparent death in Sanford in the courtyard behind 2861 Retreat View Circle. Person of contact (POC) was SPD Inv. Serino. POC advised of an unknown B/M who had been shot by a resident of the complex. POC stated the following:

At approximately 1910 hours on 02/26/2012, 911 dispatchers received a call from a resident of the complex. The resident advised of a B/M who was at the complex between the townhouses. The caller stated that the male should not have been in the area and he observed the male while walking his neighborhood watch. Shortly after the call the resident confronted the male and the two began to physically fight. Witnesses observed the two fighting in the yard and then the resident fired a handgun at the male striking him in the chest. The male fell to the ground. SPD and SFD arrived on scene. The male was pronounced at 1930 hours. The identity of the male was unknown.

FI Malphurs responded to and arrived on scene at approximately 2144 hours. FI Malphurs observed a B/M lying face up on the ground in the courtyard. The male was clothed wearing a sweatshirt, t-shirt, pants and shoes. The male did not have identification in any of his pockets. The contents of the pockets were taken into custody by SPD. One (1) defect was seen on the male's chest with a hole in each of the shirts. SPD did not request to complete a GSR kit. POC advised that the weapon used was a .9mm handgun. Fingerprint identification was attempted; however, the male was not in the database of fingerprints. The male was then named as Unidentified #3. Photographs of the scene were taken. Livery arrived on scene for assistance and placed the B/M in a blue transport pouch. The pouch was sealed with blue tag #VCME0000517. Livery removed the B/M to the MEO. POC was given a 1000 hours examination time for 02/27/2012. FI Malphurs cleared the scene at approximately 2210 hours. TSM

Addendum: On 02/28/2012 at approximately 1230 hours, FI Malphurs received a fax from Sanford Police Department confirming positive identification as: Trayvon Martin, 17yoa B/M, DOB: 02/05/1995. The identification was made by his father from a crime scene photograph. ECC and MEO staff were notified and an identification sheet was completed. TSM

REPORT OF EXAMINATION

To: Tampa
Squad ORA-2
Attention: SA James Majeski

Date: April 2, 2012

Case ID No.: 44A-TP-74471 - 9

Lab No.: 120323250 KR GA

Reference: Communication dated March 22, 2012

Ref. No.: Serial 3

Title: TRAYVON MARTIN-VICTIM;
GEORGE ZIMMERMAN-SUBJECT;
RACIAL DISCRIMINATION- FORCE AND OR VIOLENCE

Date specimen received: March 23, 2012

Specimens:

Q1 One Memorex CD-R marked in part "911 Calls" and
"Case# 201250001136"

Request:

Special Agent James Majeski of the Tampa Division requests, per the above referenced communication, that the Forensic Audio, Video and Image Analysis Unit (FAVIAU) conduct an audio enhancement examination on specimen Q1. Also, analysis of the word following "fucking" at approximately 2 minutes and 20 seconds of file 20120571656-S13PIR.wav was requested to be identified.

On March, 24th, 2012, Special Agent Majeski requested via telephone that FAVIAU conduct a voice comparison examination of the designated area of specimen Q1 (screams in the background of the 911 call of file SPD TWIN TREES S35 EVT

20120571669.wav) and the caller's voice of file 20120571656_S13PIR.wav of specimen Q1. In addition, a signal analysis examination of specimen Q1 recordings was requested, including a chronology of the specimen Q1 audio events.

Opinions and Conclusions:

This report contains the opinions and conclusions resulting from the voice comparison and signal analyses.

Summary of Examination:

The audio on all eight files of specimen Q1 was enhanced and three FBI CD-R discs were made each containing direct and enhanced copies from specimen Q1.

The specific request to identify the word following "fucking" at approximately 2 minutes and 20 seconds of file 20120571656-S13PIR.wav could not be done due to weak signal level and poor recording quality.

Voice comparison is not possible for the designated voices due to extreme stress and unsuitable audio quality.

Details of Examination:

Specimen Q1 was electronically enhanced to optimize the intelligibility of the voices and attenuate interfering or distracting features in the recordings.

The specific request to identify the word following "fucking" at approximately 2 minutes and 20 seconds of file 20120571656-S13PIR.wav could not be done due to weak signal level and poor recording quality.

Critical listening and digital signal analyses were conducted on the first approximately 45 seconds of the 911 call on file SPD TWIN TREES S35 EVT 20120571669.wav of specimen Q1. During this 45 second segment, the designated screaming voice is audible for approximately 18.82 seconds in the background while a neighbor talks to the 911 dispatcher. Of the 18.82 seconds, the screaming voice is superimposed for approximately 16.29 seconds by a simultaneous exchange between the calling female neighbor and the 911 female dispatcher. The total duration of the screaming voice without another voice overlapping is approximately 2.53 seconds long.

Critical listening and digital signal analyses further revealed that the screaming voice of the 911 call is of insufficient voice quality and duration to conduct a meaningful voice comparison with any other voice samples primarily due to the screaming voice being: (1) produced under an extreme emotional state, (2) limited in the number of

words and phrases uttered, (3) superimposed by other voices most of the time, and (4) distant, reverberant and very low signal level.

Three FBI CD-R copies were made containing direct and enhanced audio from specimen Q1. One of the discs was designated as Derivative Evidence "DE1" and the other two are labeled "Copy".

It is recommended that a high quality set of headphones be used when listening to the direct and enhanced audio files to obtain the optimum intelligibility.

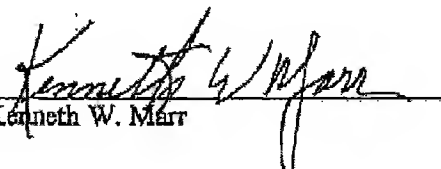

Special Agent Majeski advised telephonically on April 2, 2012, to discontinue the request for preparation of an audio event chronology of specimen Q1.

The audio enhancement and signal analyses were conducted by Kenneth Marr. The voice comparison analysis was conducted by Dr. Hirotaka Nakasone.

Disposition of Evidence:

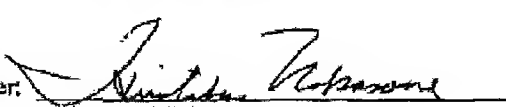

Specimens Q1, DE1 and the two additional copies were forwarded to your office via FedEx on March 24, 2012.

The Retreat At TWIN LAKES HOA Newsletter

Retreat Reflections
February 2012 Volume 5 Issue 1

This newsletter is being distributed to all residents of The Retreat at Twin Lakes (RTL). We want all residents to be both informed and involved so we can keep our community as clean and problem-free as possible.

NEWS FROM THE BOARD

You can get in touch with the RTL HOA Board by contacting Ken Taylor at Leland Management. The Board will meet the third Tuesday of each month at 7:00PM in the Clubhouse. Meetings are open to all homeowners & residents who wish to attend.

Lennar Is Gone & Gates Are Closed— Now that Lennar has completed all construction, the gates will be closed at all times. See contact information for Laura Mills below if you still need a gate code or remote.

Mulch—The HOA will mulch the neighborhood when funds are available. In the meantime, you are allowed to mulch your own property if the following criteria are met: (1) use brown cypress chips, and (2) get approval of the Architectural Review Committee. Approval can be obtained by filing the proper form. See p. 2 or p. 6 for how to obtain the forms.

Light Fixtures & Gutters—Exterior light fixtures have been installed on all new buildings and front gutters will be going up soon.

New Landscapers—We have hired a new company, Balforn Landscape, though Ash will still be on the property for the next 60 days. Check our FB page for an updated Sprinkler Repair number soon.

Important Contacts

Sanford Police Dept. Non-emergency— 407-688-5199 (to report suspicious activity, civil matters, noise nuisances, etc.)

Animal Control— 407-665-5110 (to report neighbors not leashing or picking up after their dogs)

Sanford Utilities— 407-688-5100

Community Association Manager— Ken Taylor w/ Leland Management @ 407-781-1181 or ktaylor@lelandmanagement.com

Gate Issues— Report problems or issues with the gates (remotes, roster, etc.) to Laura Mills at 407-781-1169 or email her at: lmills@lelandmanagement.com

Sprinkler Broken? Call Ash Landscape 8-6pm— 321-302-4541 Remember, if we don't know it's broken, we can't fix it!

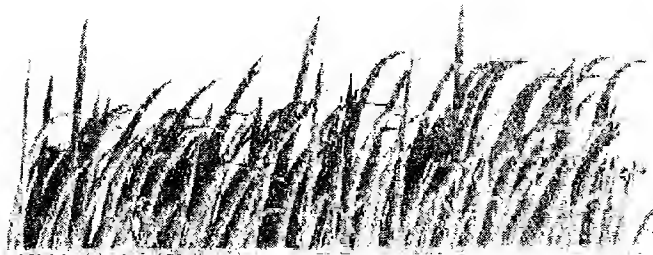

HOA Dues Info— Call 407-447-9955 and ask for Assessment and Billing

ARC Applications— Send applications to Aida Martinez at 407-781-1406 or ARB@lelandmanagement.com

Warranty Info— Within the first year, contact Professional Warranty Service Corporation (PWSC) at <http://pwsc.corrigo.com> or call 888-803-8289 with specific questions.

RTL Forms and Documents—

To view or print HOA governing documents or frequently used forms go to www.lelandmanagement.com. Click on the "Resident Portal" button and enter the requested information and the HOA information will appear. You can either view the information online or print it out. You can also download documents at: www.facebook.com/RetreatAtTwinLakes.

Expensive Sprinkler Repairs—

Sprinkler repairs have been both extensive AND expensive! **OUR** HOA dues pay for all sprinkler repairs, so, please refrain from parking with your tires on the grass. Repeated repairs at the same residence will result in the vehicle owner or homeowner being charged for the repairs.

Also, if you have a broken sprinkler head spraying a large stream of water upward, please call to report it. Again, **OUR** HOA dues pay the water bill. If we all work together to prevent sprinkler heads from being broken and report broken ones asap, we can help keep our HOA dues low. To report a broken sprinkler head, call Ash Landscape at 321-302-4541.

Trash—

Regulations require that trash containers and recycle bins are put away the day of pickup and stored out of sight. They may NOT be stored outside on driveways. Use a trash container with a lid or sturdy plastic bags that are completely closed and tied off. The use of a sturdy plastic garbage container can greatly reduce the amount of trash in our neighborhood. Garbage should **not** be placed by the curb before 6:00 PM the night before a collection day (Tuesdays & Fridays). Recycling is only picked up on Tuesdays. Thank you for helping keep our neighborhood clean!

Attention Parents—

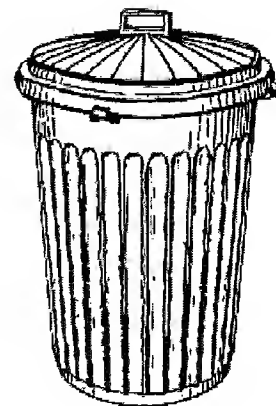

Please tell your children not to play in the street or behind others' homes. We've had several complaints about children being narrowly missed by cars coming around corners and about balls hitting others' windows, porches, and vehicles. Please speak with your children about using the sidewalks and grassy areas for play or going to the park across the street. Their safety is important to us.

Additionally, there is an issue with teens climbing over the walls, especially in the corner near Greystone. The wall is being damaged and must be repaired, which ultimately we ALL pay for via HOA dues. Parents, please ask your children to refrain from climbing over the walls in the future.

POLICIES

TO ALL DOG OWNERS —

We continue to receive multiple complaints about neighbors not leashing or picking up after their dogs, and even allowing their dogs to defecate on sidewalks. This is especially a problem around the pond. Both Seminole County law and RTL Community Policies require all dog owners to keep their pets on a leash and to pick up their dog's waste. There are numerous pet waste stations throughout the neighborhood for your convenience. Please report all ongoing offenders to Seminole County Animal Control at 407-665-5110 and to Kent Taylor with Leland Management so we can keep our community clean.

Renters—

All renters should have a copy of their lease on file with Leland Management, as well as an emergency contact information sheet. If you have any questions, please contact Ken Taylor at 407-781-1181.

Please note that you are responsible for following all RTL HOA rules and policies. You can obtain a copy of the HOA rules from this website - www.lelandmanagement.com. As a renter and a resident of this community, you are also encouraged to attend any meetings held within the community to provide your input as to how the community is being maintained.

Parking Rules—

Parking in yellow-painted "No Parking" zones, in the grass, and in front of stop signs are not allowed. Violators will receive a warning notice on their vehicle marked with the specific violation. Anyone continuing to violate parking rules will receive a tow notice. A tow notice is a 24-hour warning to correct your violation before your car will be towed. Any vehicle blocking a fire hydrant will be towed without warning. Long-term and overnight parking of commercial vehicles is prohibited at all times.

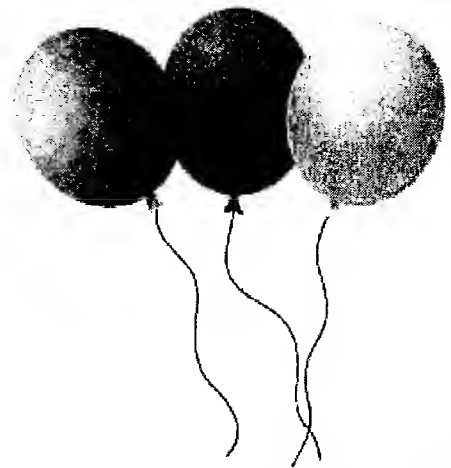

Pool Rules—

Please familiarize yourself with the rules for the swimming pool. **Loud music, pets, smoking and alcohol are not allowed.** Music must be played using headphones and children under the age of 15 are not permitted use of the pool unless they are accompanied by an adult and supervised continuously. Pool hours are dawn to dusk with no exceptions per the County health code.

Clubhouse Rental Policy—

If you are interested in renting the clubhouse for a private event, here is what you need to know:

- A rental agreement must be submitted 14 days in advance.
- The rental fee of \$150.00 for 4 hours is non-refundable.
- A refundable \$200.00 security deposit is required.
- The HOA will hire an off duty police officer for the event.
- The rental is for the clubhouse only, not the pool area.
- No alcoholic beverages are permitted at any time.
- The maximum number of guests is 25.
- Forms are at the "Resident Portal" at www.lelandmanagement.com

THERE ARE NO EXCEPTIONS TO THE ABOVE POLICY

NEIGHBORHOOD NEWS & MISCELLANEOUS

Ongoing Repairs in the Neighborhood—

Jesse Arms from Advanced Property Repairs will be doing the stucco repair work with two of his people in the community. Notices are going to be left at the front doors of buildings where work will begin. Also people from JC Painting will be working on the outside wall and painting within the community.

Box Tops For Education—

Show your support for our neighborhood school, Altermese Bentley Elementary. Please collect the "box tops for education" labels from the food items you have in your home. A collection box will be posted near the mailbox kiosk. The labels will be delivered to Bentley Elementary School to be converted into funds for the teachers and students. Go to www.bboxtops4education.com for more information.

Local Farmer's Markets—

Lake Mary Farmer's Market is every Saturday in front of Lake Mary City Hall from 9am-1:30pm. Sanford Farmer's Market is in Magnolia Square on 1st Street and held every Saturday from 9am-2pm.

Upcoming Board Meetings—

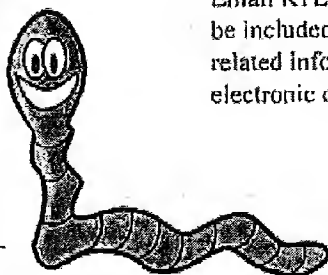

- February 21, 2012
- March 20, 2012
- April 17, 2012
- May 22, 2012
- June 19, 2012

Blocking Gate Entrances—

We've had complaints about cars parking outside the gates to wait for children getting out of school. This is not a drop-off or pick-up spot and it is blocking the flow of traffic attempting to exit our community. Please find a safer spot to use.

RTL Resident Contact List—

Email RTLReflections@gmail.com if you would like to be included on an email list for disseminating community-related information, especially during emergencies, and electronic copies of the newsletter.

The Hazards of Dog Poo—

Dog waste can cumulatively have a big impact if left unmanaged. Dog waste contains bacteria and parasites, as well as organic matter and nutrients. Dog waste may be infested with microscopic organisms that can be transmitted to both humans and other animals. Some of the diseases that can spread from dog waste to humans are:

Salmonella –the most common bacterial infection transmitted to humans from dogs. Symptoms include: fever, muscle aches, headaches, vomiting and diarrhea.

Roundworms – reside in the small intestine. Its eggs are passed to the outside environment in feces. In humans, roundworms take a different path in the human body causing disease to the lungs, liver, and eyes.

Hookworms – parasites picked up by individuals that walk barefoot in contaminated areas.

In addition to these diseases, there is the issue of water pollution, soil contamination, odors, flies, insects, and rodents that carry their own diseases. You can track trace amounts of feces or parasites into your home from the bottom of your shoes and expose your house pets or children. Help us take action to insure the health of our families, our pets, and our community by picking up after your pets!

Smokers—

If you are a smoker, please be considerate and help keep our community clean of cigarette butts. Find a place to dispose of your butts so they are not in our lawns, driveways and streets.

Speeders—

Even though the posted speed limit inside the community is 15 mph, some drivers disregard it and speed through our streets. Be aware the cops are patrolling our streets with more frequency, and hopefully the offenders will be caught in the near future.

Facebook—

The Retreat at Twin Lakes now has a Fan Page on Facebook. You can "Like" us by going to the link: www.facebook.com/RetreatAtTwinlakes. Your "Like" will be anonymous and other fans will not see your profile, though you can post on our Wall if you want to interact with your neighbors or the Board. We've added links to Sanford365 and the Sanford Herald and an "Events" tab with information on upcoming Board meetings, community events, and other Sanford happenings.

Storing Items on Porches—

Please remember that trash cans, strollers, bikes, and other personal items **MUST** be stored out of sight from the street or you will receive a violation notice. Front porches should not be used for storage.

Business in the neighborhood LIST YOUR AD HERE!

COMMITTEE NEWS

The Social Committee —

Watch for flyers posted by the mailboxes for information on additional socials.

Neighborhood Watch —

The Sanford PD has announced an increased patrol within our neighborhood. In addition to the extra marked patrols, Sanford PD has initiated random bike patrols of both the front and back yards of our community and random unmarked vehicle patrols with increased patrolling during peak crime hours. If you've been the victim of a crime within the community, after calling the police, please contact our Captain, George Zimmerman, at 407-435-2400, so we can be aware and help address the issue with other residents.

The Neighborhood Watch is looking for additional members to participate and become a block captain. We are open to all residents. Meetings are held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings. Please keep your eyes open. If you see something suspicious or out of place, report it! You can make an anonymous call to the Sanford PD Non-emergency # 407-688-5199 or 911 and help keep our community safe. Email us at: RTLNeighborhoodWatch@gmail.com for more information or call George Zimmerman at 407-435-2400.

Architectural Review Committee (ARC) —

If you are considering making changes to the exterior of your townhome, including changes to the mulch or landscaping, you **MUST** submit the proper forms and documentation to the ARC for review and approval. All forms regarding the community policies, including the ARC forms can be found at: www.Ielandmanagement.com. Please be advised that the repair of driveways caving in is the homeowners' responsibility, as are driveway stains. Contact the ARC for names of companies that can assist with replacing pavers. The ARC can be contacted at RTLARC@gmail.com. Meetings are open to the public and will be held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings.

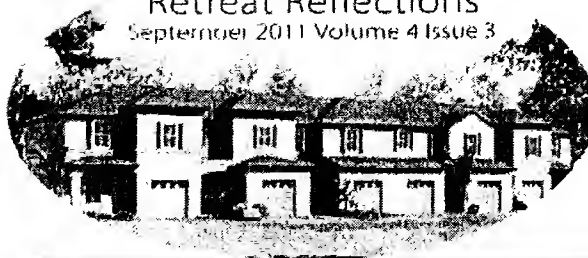

Newsletter Committee — If you'd like an electronic copy of the newsletter, have suggestions for content, or want to place an advertisement, email us at: RTLReflections@gmail.com.

Landscaping Committee —

Please **DO NOT** park on the grass, especially where sprinkler heads may be located! Any alterations to the landscaping in front of your home must be approved first by the ARC. Once the landscaping is altered, the landscapers will not touch it, so alterations must be approved first and determined to be compatible with the existing landscaping. Upkeep will then be the responsibility of the homeowner. We have hired a new landscaping company, Balforn Landscape, starting in February, although Ash Landscaping will still be correcting some issues for the next 60 days. Feel free to contact us to tell us how they're doing. Meetings will be held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings.

The Retreat At
TWIN LAKES
HOA Newsletter

Retreat Reflections
September 2011 Volume 4 Issue 3

This newsletter is being distributed to all residents of the Retreat at Twin Lakes (RTL). We want all residents to be both informed and involved so we can keep our community as clean and problem-free as possible.

NEWS FROM THE BOARD

You can get in touch with the RTL HOA Board by contacting Kent Taylor at Leland Management. The Board will meet the third Tuesday of each month at 7:00PM in the Clubhouse. Meetings are open to all homeowners & residents who wish to attend.

New Board Elected— The Annual Membership Meeting was held on September 20, 2011 and a new HOA Board of Directors was elected. Cindy Wibker is the only returning Board Member. Board Members serve a one year term.

We're on FACEBOOK!—The Retreat at Twin Lakes now has a Fan Page on Facebook. You can "Like" us by going to the link: www.facebook.com/retreatattwinlakes. Your "Like" will be anonymous and other fans will not see your profile, though you can post on our Wall if you

want to interact with your neighbors or the Board. We've added links to Sanford365 and the Sanford Herald and an "Events" tab with information on upcoming Board meetings, the community Garage Sale and other Sanford happenings.

Important Contacts

Sanford Police Dept. Non-emergency— 407-688-5199 (to report suspicious activity, civil matters, noise nuisances, etc.)

Animal Control— 407-665-5110

Sanford Utilities— 407-688-5100

Community Association Manager— Kent Taylor w/ Leland Management @ 407-781-1181 or ktaylor@lelandmanagement.com

Gate Issues— Report problems or issues with the gates (remotes, roster, etc.) to Laura Mills at 407-781-1169 or email her at: lmills@lelandmanagement.com

Sprinkler Broken? Call Ash Landscape 8-6pm— 321-302-4541 Remember, if we don't know it's broken, we can't fix it!

HOA Dues Info— Call 407-447-9955 and ask for Assessment and Billing

ARC Applications— Send applications to Aldo Martinez at 407-781-1406 or ARB@lelandmanagement.com

Warranty Info— Within the first year, contact Professional Warranty Service Corporation (PWSC) at <http://pwsc.corpigo.com> or call 888-803-8289 with specific questions.

RTL Forms and Documents—

To view or print HOA governing documents or frequently used forms go to www.lelandmanagement.com. Click on the "Resident Portal" button and enter the requested information and the HOA information will appear. You can either view the information online or print it out.

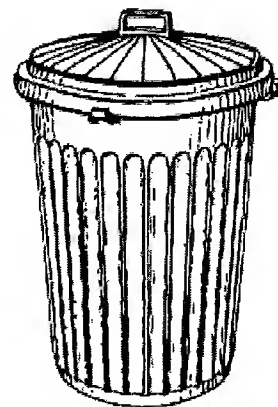

Kids Playing in the Streets—

Attention parents!! We have had multiple complaints about children playing in the streets and narrowly avoiding being hit by cars, especially coming around corners. Please speak with your children about using the sidewalks and grassy areas for play or going to the park across the street. Their safety is important to us.

Trash—

Regulations require that trash containers and recycle bins are put away the day of pickup and stored out of sight. They may NOT be stored outside on driveways. Use a trash container with a lid or sturdy plastic bags that are completely closed and tied off. The use of a sturdy plastic garbage container can greatly reduce the amount of trash in our neighborhood. Garbage should not be placed by the curb before 6:00 PM the night before a collection day (Tuesdays & Fridays). Recycling is only picked up on Tuesdays. Thank you for helping keep our neighborhood clean!

Important Reminders—

Check your homeowner insurance policies to be sure you are covered for **hurricane, storm and wind damage**. The HOA is responsible for repairing, replacing and maintaining roofs and exterior painting only for "normal" depreciation and would not cover any type of storm damage. Talk to your insurance agent to make sure you are covered.

If a hurricane is approaching, a member of the HOA will disable the gates and tie them down with rope. Be sure to remove any possessions stored outside on patios and check with the City of Sanford at 407-688-5100 to ensure pick up before placing your garbage and recycling out for collection during a storm.

POLICIES

Doggie Rules —

Are you being a responsible pet owner and a good neighbor? Both Seminole County law and RTL Community Policies require all dog owners to keep their pets on a leash and to pick up their dog's waste. There are numerous pet waste stations throughout the neighborhood for your convenience, which are emptied weekly. Please report all ongoing offenders to Seminole County Animal Control at 407-665-5110 and to Kent Taylor with Leland Management so we can keep our community clean.

Renters—

Please note that you are responsible for following all RTL HOA rules and policies. You can obtain a copy of the HOA rules from this website - www.lelandmanagement.com. As a renter and a resident of this community, you are also encouraged to attend any meetings held within the community to provide your input as to how the community is being maintained. This is your home too, so please speak up if you see or hear about any problems!

Parking Rules—

Parking in yellow-painted "No Parking" zones, in the grass, and in front of stop signs are not allowed. Violators will receive a warning notice on their vehicle marked with the specific violation. Anyone continuing to violate parking rules will receive a tow notice. A tow notice is a 24-hour warning to correct your violation before your car will be towed. Any vehicle blocking a fire hydrant will be towed without warning. Long-term and overnight parking of commercial vehicles is prohibited at all times.

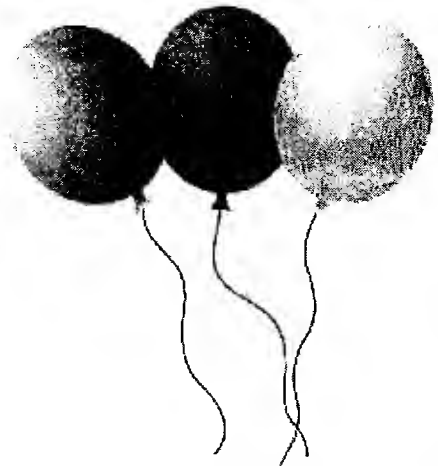

Pool Rules—

Please familiarize yourself with the rules for the swimming pool. **Loud music, pets, smoking and alcohol are not allowed.** Music must be played using headphones and children under the age of 15 are not permitted use of the pool unless they are accompanied by an adult and supervised continuously. Pool hours are dawn to dusk with no exceptions per the County health code.

Clubhouse Rental Policy—

If you are interested in renting the clubhouse for a private event, here is what you need to know:

- A rental agreement must be submitted 14 days in advance.
- The rental fee of \$150.00 for 4 hours is non-refundable.
- A refundable \$200.00 security deposit is required.
- The HOA will hire an off duty police officer for the event.
- The rental is for the clubhouse only, not the pool area.
- No alcoholic beverages are permitted at any time.
- The maximum number of guests is 25.
- Forms are at the "Resident Portal" at www.lelandmanagement.com

THERE ARE NO EXCEPTIONS TO THE ABOVE POLICY

NEIGHBORHOOD NEWS - Around Town

Community Garage Sale—

- If you have stuff you want to sell, the whole community will be holding a garage sale on Saturday, October 8, 2011 from 7am to 4pm. The HOA will post "Garage Sale" signs at both gates, advertise the garage sale online and keep the gates open during those hours.

Oktoberfest in Downtown Historic Sanford—

The theme for Thursday, October 13th's Alive After Five event is Oktoberfest and the November 17th theme is Seafood Harvest. Alive After Five is a monthly event to promote the businesses in downtown historic Sanford on the second Thursday of the month from 5-8pm. Admission is \$7 and includes samples of food and beverages.

Local Farmer's Markets—

Lake Mary Farmer's Market is every Saturday in front of Lake Mary City Hall from 9am-1:30pm. Sanford Farmer's Market is in Magnolia Square on 1st Street and held every Saturday from 9am-2pm.

Spooky Hollow—

Trick or treat in Downtown Sanford on Monday, October 31, 2011 6-8PM

RTL Resident Contact List—

Email RTLReflections@gmail.com if you would like to be included on an email list for disseminating community-related information, especially during emergencies, and electronic copies of the newsletter.

Did You Know?

- You can watch upcoming soapbox derby races at Derby Park across the street on 10.01, 10.22, 10.23, 11.12, 12.31, and 01.01.12.
- The newly renovated Fort Mellon Park in downtown Sanford has a Splash Pad for kids costing \$2 a child.
- Lake Mary has a Skate & BMX Park at the Lake Mary Sports Complex on 550 Rantoul Lane off 46A/NE Thomas.

Neighborhood Watch & Crime in the Community

We have recently experienced an increased incidence of crime within the community including three break-ins in the past month, which is why having residents committed to being members of the Neighborhood Watch and reporting suspicious activities is so important. We must send a message that we will not tolerate this in our community! If you have any information on these crimes or witness suspicious activity, please contact the Sanford PD at 407-688-5199. Your call can be anonymous.

Having an active Neighborhood Watch can reduce crime by 80%. To receive Neighborhood Watch updates, safety tips and be notified of any suspicious activity within your community Call George Zimmerman at 407-435-2400 or email RTLneighborhoodwatch@gmail.com to get involved. You can also call Sanford PD to schedule free "vacation checks" when you go out of town as well as free home security inspections to help you burglar-proof your home.

Go to www.crimemapping.com and click on Sanford PD for more crime reports from this community.

Crime Prevention Tips—

- Turning on your front and back porch lights nightly will help illuminate the areas around your home and make it less of a target for crime.
- Place a bar in the track of your sliding glass door.
- Get to know your neighbors and their cars so that you can more easily identify suspicious persons and cars.
- When going out of town- cancel your newspaper, leave a car parked in the driveway (instead of the garage), and use automatic timers to turn on your interior lights, radio, or TV in order to give the impression that someone is home.
- Permanently engrave your driver's license number on two permanent parts of your property. This discourages theft and ensures that the police can identify and return your stolen property to you.
- Do NOT post publicly on social media websites that you are out of town. This may make your home a target.
- Most crimes are crimes of opportunity so never leave your garage door open, doors unlocked, or valuable items out in the open or unattended.
- After holiday shopping, breakdown your boxes and either bag them or place them inside of your garbage. Leaving large electronics boxes curbside for garbage pickup becomes an advertisement to criminals.

Business in the neighborhood LIST YOUR AD HERE!

Retreat Reflections | September 2011 Volume 4 Issue 3
COMMITTEE NEWS

The Social Committee —

Watch for flyers posted by the mailboxes for information on additional socials.

Neighborhood Watch —

We just held a meeting with the Sanford PD on 9.22.11 and learned many great tips for preventing crime in our community. In attendance on behalf of Sanford Police Department were: Community Volunteer Coordinator, Wendy Dorival, Sergeant Herx and Officer Buchannon. Sergeant Herx and Officer Buchannon are both assigned to our neighborhood and announced increased patrol within our neighborhood. In addition to the extra marked patrols, Sanford PD has initiated random bike patrols of both the front and back yards of our community and random unmarked vehicle patrols with increased patrolling during peak crime hours. Sanford Police Chief Bill Lee has pledged his support to our neighborhood and asked to attend the next Neighborhood Watch community meeting!

The Neighborhood Watch is looking for additional members to participate and become a block captains. We are open to all residents. Meetings are held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings. Please keep your eyes open. If you see something suspicious or out of place, report it! You can make an anonymous call to the Sanford PD Non-emergency # 407-688-5199 or 911 and help keep our community safe. Email us at: RTLNeighborhoodWatch@gmail.com for more information or call George Zimmerman at 407-435-2400.

Architectural Review Committee (ARC) —

If you are considering making changes to the exterior of your townhome, including changes to the mulch or landscaping, you **MUST** submit the proper forms and documentation to the ARC for review and approval. All forms regarding the community policies, including the ARC forms can be found at: www.lelandmanagement.com. Please be advised that the repair of driveways caving in is the homeowners' responsibility, as are driveway stains. Contact the ARC for names of companies that can assist with replacing pavers. The ARC can be contacted at RTLARC@gmail.com. Meetings are open to the public and will be held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings.

Newsletter Committee —

If you'd like an electronic copy of the newsletter, have suggestions for content, or want to place an advertisement, email us at: RTLReflections@gmail.com.

Landscaping Committee —

New grass has been planted, so please **DO NOT** park on it! Additionally, residents need to continue to watch where they park to avoid damaging sprinkler heads. Any alterations to the landscaping in front of your home must be approved first by the ARC. Once the landscaping is altered, the landscapers will not touch it, so alterations must be approved first and determined to be compatible with the existing landscaping. Upkeep will then be the responsibility of the homeowner. Meetings will be held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings.

The Retreat At TWIN LAKES HOA Newsletter

Retreat Reflections
June 2011 Volume 4 Issue 2

This newsletter is being distributed to all residents of The Retreat at Twin Lakes (RTL). We want all residents to be both informed and involved so we can keep our community as clean and problem-free as possible.

NEWS FROM THE BOARD

You can get in touch with the RTL Board by contacting Kent Taylor at Leland Management. The RTL HOA Board will meet the third Tuesday of each month at 7:00PM in the Clubhouse. HOA meetings are open to all homeowners and residents who wish to attend.

Gutters— will be installed on the new buildings in phases. Any homeowners who wish to install additional gutters can contact Ed Senez Aluminum Specialists, Inc. at 386-775-4915 and ask for Tim or Ed. Their website is www.edsenezaluminum.com.

Hiring Sanford Police Officers—The Board will begin hiring Sanford Police Officers again in July to patrol the community several times a month and enforce

Meet your Board Members: Kent Taylor with Leland Management, Noah Caraker, Cindy Wibber, Sam Gellerstedt, Board Members.

the RTL speed limit and other HOA policies, including parking rules, such as no parking in the grass or on the yellow-painted curbs. Additionally, Sanford PD is able to enter our community and ticket speeders at any time. The posted speed limit for the community is 15 mph, so, please take note, watch your speed, and be advised of all HOA policies.

Important Contacts

Sanford Police Dept. Non-emergency— 407-688-5199 (to report suspicious activity, civil matters, noise nuisances, etc.)

Animal Control— 407-665-5110

Sanford Utilities— 407-688-5100

Kent Taylor at Leland Management— 407-781-1181 or ktaylor@lelandmanagement.com

Gate Issues— Report problems or issues with the gates (remotes, roster, etc.) to Laura Mills at 407-781-1169 or email her at: lmills@lelandmanagement.com

Sprinkler Broken? Call Ash Landscape 8-6pm— 321-302-4541 Remember, if we don't know it's broken, we can't fix it!

HOA Dues Info— Call 407-447-9955 and ask for Assessment and Billing

Warranty Info— Within the first year, contact Professional Warranty Service Corporation (PWSC) at <http://pwsc.corlgo.com> or call 888-803-8289 with specific questions.

Gate Issues—

The HOA has had to pay for costly repairs to the gates twice in one week. If you see kids jumping or hanging on the gate or witness a car hitting the gate, please report this to Kent Taylor at Leland Management at: 407-781-1181 or ktaylor@lelandmanagement.com.

Homeowner's Insurance—

Attention homeowners! Please check your homeowner insurance policies to be sure you are covered for hurricane, storm and wind damage. The HOA is responsible for repairing, replacing and maintaining roofs and exterior painting only for "normal" depreciation and would not cover any type of storm damage. Talk to your insurance agent to make sure you are covered.

RTL HOA Forms and Documents—

To view or print HOA governing documents or frequently used forms go to www.lelandmanagment.com.

Click on the "Resident Portal" button and enter the requested information and the HOA information will appear.

You can either view the information online or print it out.

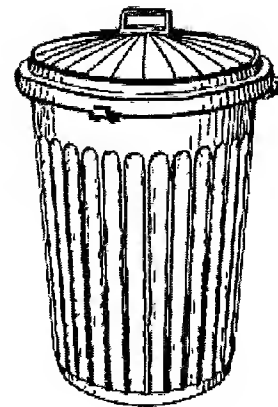

POLICIES

Doggie Rules —

Are you being a responsible pet owner and a good neighbor? Both Seminole County law and RTL Community Policies require all dog owners to keep their pets on a leash and to pick up their dog's waste. There are numerous pet waste stations throughout the neighborhood for your convenience, which are emptied weekly. Please report all ongoing offenders to Seminole County Animal Control at 407-665-5110 and to Kent Taylor with Leland Management so we can keep our community clean.

Trash—

Regulations require that trash containers and recycle bins are put away the day of pickup and stored out of sight. They may NOT be stored outside on driveways. Use a trash container with a lid or sturdy plastic bags that are completely closed and tied off. The use of a sturdy plastic garbage container can greatly reduce the amount of trash in our neighborhood. Garbage should not be placed by the curb before 6:00 PM the night before a collection day (Tuesdays & Fridays). Recycling is only picked up on Tuesdays. Thank you for helping keep our neighborhood clean!

Renters—

Please note that you are responsible for following all RTL HOA rules and policies. You can obtain a copy of the HOA rules from this website - www.lelandmanagement.com. As a renter and a resident of this community, you are also encouraged to attend any meetings held within the community to provide your input as to how the community is being maintained. This is your home too, so please speak up if you see or hear about any problems!

Parking Rules—

Parking in yellow-painted "No Parking" zones, in the grass, and in front of stop signs are not allowed. Violators will receive a warning notice on their vehicle marked with the specific violation. Anyone continuing to violate parking rules will receive a tow notice. A tow notice is a 24-hour warning to correct your violation before your car will be towed. Any vehicle blocking a fire hydrant will be towed without warning. Long-term and overnight parking of commercial vehicles is prohibited at all times.

Pool Rules—

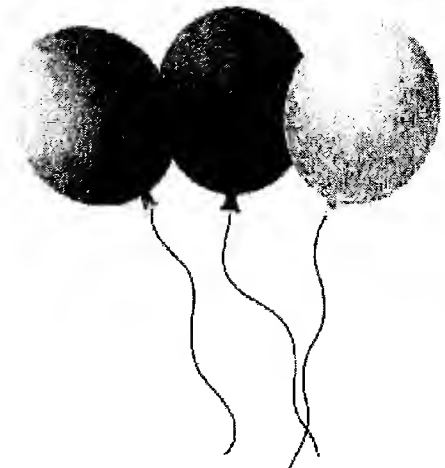

Please familiarize yourself with the rules for the swimming pool. **Loud music, pets, smoking and alcohol are not allowed.** Music must be played using headphones and children under the age of 15 are not permitted use of the pool unless they are accompanied by an adult and supervised continuously. Pool hours are dawn to dusk with no exceptions per the County health code.

Clubhouse Rental Policy—

If you are interested in renting the clubhouse for a private event, here is what you need to know:

- A rental agreement must be submitted 14 days in advance.
- The rental fee of \$150.00 for 4 hours is non-refundable.
- A refundable \$200.00 security deposit is required.
- The HOA will hire an off duty police officer for the event.
- The rental is for the clubhouse only, not the pool area.
- No alcoholic beverages are permitted at any time.
- The maximum number of guests is 25.
- Forms are at the "Resident Portal" at www.lelandmanagement.com

THERE ARE NO EXCEPTIONS TO THE ABOVE POLICY

NEIGHBORHOOD NEWS - Around Town

Star Spangled Sanford—

The City of Sanford is putting on a free fireworks show Monday, July 4, 2011 from 5-10pm in Fort Mellon Park and along the River Walk. Enjoy food, games, music and the Splash Pad and play area in Fort Mellon Park. Restaurants and shops are within walking distance, such as Hollerbach's Willow Tree Cafe on 1st Street featuring delicious German and American fare! www.starspangledsanford.com

Red, White and Blue Grass in Downtown Historic Sanford—

The theme for Thursday, July 14th's Alive After Five event is Red, White and Blue Grass. Alive After Five is a monthly event to promote the businesses in downtown historic Sanford on the second Thursday of the month from 5-8pm. Admission is \$7 and includes samples of food and beverages.

Local Farmer's Markets—

Lake Mary Farmer's Market is every Saturday in front of Lake Mary City Hall from 9am-1:30pm. Sanford Farmer's Market is in Magnolia Square on 1st Street and held every Saturday from 9am-2pm with special evening hours on Wednesdays from 5-8pm in June and July 2011.

RTL Resident Contact List—

The RTL HOA is putting together an email and phone list of residents for disseminating community-related information, especially during emergencies, and electronic copies of the newsletter. Email: RTLReflections@gmail.com with your info.

Did You Know?

- You can now pay your Sanford Utility bill at any Wal-Mart nationwide.
- The newly renovated Fort Mellon Park in downtown Sanford has a Splash Pad for kids costing \$2 a child?
- The Central Florida Zoo is right around the corner on 17/92 in Sanford? www.centralfloridazoo.org

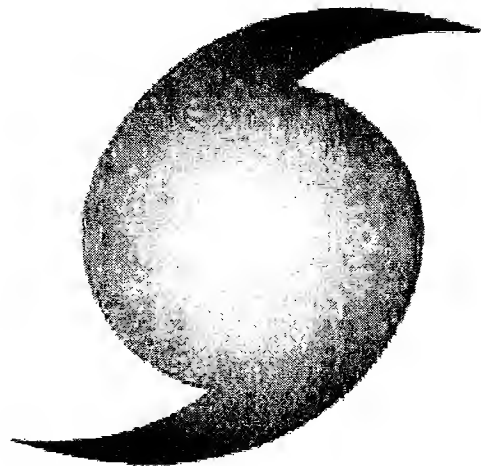

Hurricane Season—

Florida's hurricane season began June 1st. If a hurricane is approaching, be sure to remove any possessions stored outside on patios to prevent these items from getting blown around the property and causing damage during high winds. Also, please check with the City of Sanford at 407-688-5100 to ensure pick up before placing your garbage and recycling out for collection during a storm.

If a hurricane is projected to hit our area, a member of the HOA will disable both gates and tie them down with rope to prevent any damage, so don't be alarmed if you see this occur.

Here is a quick & practical checklist for "hurricane kit" items to keep in your home: sandbags, instant cell charger, overnight clothes, extra cash, generator, batteries, flash lights, battery operated radio/television/fans, bottled water, toilet paper, non-perishable foods such as cereal or crackers, canned goods, nutrition drinks, can opener, a small cooler, ice, candles, plastic utensils, paper plates/bowls/cups, gas powered grill or burner, prescription medicines and any over-the-counter remedies you use regularly; and if you have small children- diapers, baby wipes, formula, baby food, extra food & supplies for your pets.

In case you didn't know, Bentley Elementary School has been designated as an emergency shelter for those with special needs and with pets, though pets must be in crates.

Interested in Water Aerobics?

One of your neighbors would like to start a water aerobics group at the pool this summer. If you can teach water aerobics or are interested in the group, contact Len at 321-663-6823

Top Reasons for Violation Notices-

Are you one of the violators? Please be advised of HOA policies and make the necessary corrections:

1. Trash cans, strollers, bikes, and other personal items not stored out of sight
2. Stains on driveway pavers needing to be removed
3. Cars parking on the street that drip oil
4. Unapproved changes to landscaping
5. Not putting a leash on or picking up after one's dog
6. Parking in prohibited areas

Business in the neighborhood LIST YOUR AD HERE!

Retreat Reflections | June 2011 Volume 4 Issue 2
COMMITTEE NEWS

The Social Committee—

Thank you to our neighbors who came out for the pool social on June 18, 2011. Our next planned event will be a Community Garage Sale in October 2011. Additional socials are in the works, so watch for flyers to be posted by the mailboxes.

Neighborhood Watch —

The Neighborhood Watch is open to all residents. We are looking for additional members who live throughout the community to serve as Block Captains, so we hope to see you at future meetings! Meetings are held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings. Please keep your eyes open. If you see something suspicious or out of place, report it! You can make an anonymous call to the Sanford PD Non-emergency # 407-688-5199 or 911 and help keep our community safe.

Architectural Review Committee (ARC)—

Letters will be going out to all homeowners with ARC violations. Please be advised that the repair of driveways caving in is the homeowners' responsibility, as are driveway stains. Contact the ARC for names of companies that can assist with replacing pavers. If you are considering making changes to the exterior of your townhome, including changes to the mulch or landscaping, you **MUST** submit the proper forms and documentation to the ARC for review and approval. All forms regarding the community policies, including the ARC forms can be found at: www.lelandmanagement.com. The ARC can be contacted at RTLARC@gmail.com. Meetings are open to the public and will be held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings.

Newsletter Committee —

We are now on Twitter! To follow us, visit www.twitter.com/rtl_news. If you'd like an electronic copy of the newsletter, have suggestions for content, or want to place an advertisement, email us at: RTLReflections@gmail.com.

Landscaping Committee—

New grass has been planted! The landscapers continue to spray the lawns monthly for weeds and chinch bugs. Residents need to continue to watch where they park to avoid damaging sprinkler heads. Any alterations to the landscaping in front of your home must be approved first by the ARC. Once the landscaping is altered, the landscapers will not touch it, so alterations must be approved first and determined to be compatible with the existing landscaping. Upkeep will then be the responsibility of the homeowner. Meetings will be held the third Tuesday of each month at 6:30PM in the clubhouse, 30 minutes prior to the scheduled HOA Board meetings.

I have received a request for a Neighborhood Watch presentation at Retreat at Twin Lakes on Thursday September 22nd at 7pm, see attached flyer. I am requesting that the CSA officer and investigator if possible are present at this meeting. In the last 3 months there have been 3 burglaries in this neighborhood case# 201150004606, 4260, 4143 and a theft of copper wire from an ac unit 4060.

Two of the burglaries are no forced, point of entry is the sliding glass door.

Good afternoon Wendy,
It was with great pleasure that I sent that email, you deserve the recognition! I have had a surprisingly good percentage of persons stating that they would attend; however, as you stated and from my own experience in sales, I believe 25 packets should be plenty. The cards look fantastic, if they have not gone to print yet, the one revision I would ask is to add the community's NW email address which is RTLneighborhoodwatch@gmail.com as some people prefer to communicate via email. I will look into what screens or TV's we may have available and let you know. Thanks again for everything, I will meet you at the clubhouse at 6:30 on thursday.

George

Mr. Zimmerman,

Attached please find some contact cards I created for your neighborhood watch in place of the outdated magnets we have. I have included your name at the bottom with your phone number, can you just look over them to make sure I have your correct number. I will print 300 for your neighborhood, I will bring them out on Thursday.

I will have a powerpoint, I have a laptop and projector, just need a blank wall to project it on. Or if you have a big screen in the community room, I can connect it to a TV. Let me

know what would work best. The meeting is scheduled for 7pm, but I will be there at 6:30pm to make sure I can get setup.

Have you received any feedback from residents about attending the meeting? I have prepared 25 packets of materials, but if you think we will need more due to the responses you are getting let me know. If you have an email list of residents it would be good if you could send a reminder to them. If not we will get an email listing started on Thursday!

A neighbor named Frank called me last week reporting a suspicious person in your neighborhood, I connected him to dispatch. I will go over when to call 9.1.1. vs non emergency dispatch on Thursday.

Thank you for your kind words you sent to the Chief, I appreciate it.

Best Regards,

Lt. McAuliffe,

I just wanted to let you know that the NW at Retreat at Twin Lakes was great! We had 25 residents attend. The major concerns were the burglaries. I did share with them the crime stats from July till present and there were 5 burglaries (2 were construction sites) and 4 out of the 5 burglaries were no force. I emphasized on preventing burglary by locking doors and windows, in addition I offered to come to their home for CPTED inspections. There are other concerns that residents have with the HOA regarding lighting, and the rentals in the community which I am going to address with the HOA president.

Sgt. Herx and Officer Buchanan from patrol were present. They answered questions and provided some tips as well. Officer Buchanan also mentioned that there was a possible arrest going to be made on one of the burglaries or that they made one. It would have been ideal to have an investigator present to address the community regarding the status of the burglaries, but they did not show. I made a request for an investigator on August 31st. See below email.

Please let the Chief know that we had a great turn out at the meeting, and that all the comments from the residents about SPD were positive. The NW Coordinator will be providing me with the block captain list and telephone tree in the next week or so.

I just heard from Investigator Lugo who is assigned to the case. She says they have identified a suspect but have not been able to locate him.

Case is still active.

Let me know if I can be of further assistance.

BTW, do you know what the process is with the board in reference to the rental units. Do they request that the property management company provide them with a background check etc. Does the board approve the rental applicants?

George,

I am back from vacation and my volunteer said she was unable to find an arrest. I made a query in the system and I found out that we received a fingerprint match on the burglary and identified a suspect. I have left a message with Investigator Lugo to see if there was an arrest made. The system does not indicate an arrest. I will give you more information as soon as I hear from Inv Lugo.

Hello Wendy! Hope all is well. I understand a suspect was arrested in the home invasion case that occurred in my neighborhood. Is that information correct?
Thanks again!
George Zimmerman

SECONDARY ASSESSMENT - INJURY:
HEAD - Laceration Hemorrhage (1 inch) (Venous): Occipital.
Abrasion: Forehead. Pain Tenderness Hemorrhage (Capillary): Nose.

NARRATIVE:

***Pt #1

R38 and E38 responds for a GSW. O/S 28 y/o male pt is found sitting up in the back of a police car, handcuffed, in custody of SPD. Pt states he was assaulted and his head was struck on the pavement. Pt's GCS = 15 and he's warm/dry with normal skin color. Pt has abrasions to his forehead, + bleeding/tenderness to his nose, and a small laceration to the back of his head. All injuries have minor bleeding. Pt also denies LOC, neck/back pain, and he has + PMS x 4 with - paresthesia. Pt's wounds are cleaned and SPD advises they will xport pt. Pt is left in custody of SPD.

***Pt #2

Name : John Doe (pt had no ID on him and SPD had no info on him)

Pt #2 is an approx. 20 y/o male pt with a single GSW to the center of his chest just above the xiphoid process with very minor bleeding and a unknown exit wound. Pt is also pulseless and apenic with SPD doing mouth to mask breathing and chest compressions. Pt is placed onto our monitor which shows Asystole with a few escape beats. Pt is called no vitals at 1930 hrs and scene is turned over to SPD.
